## **Snap-on releases new tools for more comfortable, efficient, effective work**

**KENOSHA, Wis. (Sept. 20, 2019)** – Work in the shop or anywhere can be more efficient and effective with the added comfort and strength of these new tools and products from Snap-on.

**Snap-on® CTRQ717DB 14.4 V Hex Drive Long Neck Cordless Ratchet** – This tool's low tapered head and 13-3/4" length will provide technicians with even more reach and accessibility. The CTRQ717DB features a commanding 35 ft-lb of torque output, 46 ft-lb of manual torque load and a variable trigger speed to tackle even the toughest fasteners. Battery life can be monitored using the battery fuel gauge, and the LED headlight and the overmolded cushion grip ensures comfortable use even in the most challenging environments.

**Snap-on® ECARD062 Dual Sided Flex Light** – This versatile light from Snap-on includes a 270° folding design with magnets on the bottom and back for maximum visibility in any space. The ECARD062 includes a 300 lumen spot light, 600 lumens on each side and 800 lumens when both are activated. The main light includes a dimmable memory function switch that takes only a press and hold to activate. The ECARD062 is IP65 resistant to water and dust infiltration and has an onboard battery fuel gauge.

**Snap-on® 94CF Talon Grip™ 5" Plastisol Grip Needle Nose Pliers** – When compared to straight, serrated-jaw pliers, these Talon Grip™ Long Nose Pliers provide up to a 57 percent increase in pulling power with a relocated joint, optimized handle shape and diamond serrated jaws. Thanks to the rounded jaw edges, technicians can confidently make loops and bends without fear of cutting wires. The jaw tips are perfectly aligned and feature machined teeth for accurate gripping strength and positive control. The tool's contoured handle offers a more comfortable grip and superior leverage.

**Snap-on® CTFAN9050 18 V Heavy-Duty Fan** – The heavy-duty CTFAN9050 fan can plug-in or go cordless. A three-speed BLDC motor is DC, 18–24 V and 22 W and is not only rugged but comes with a dual power source 18 V battery or 110 V AC charging port. The battery will last 12 hours on the low setting, five hours on medium and three hours on high with air speed ranging from 1,500 RPM on the low setting, 2,500 RPM on medium, and 3,000 RPM on high. The indexable fan includes three 6-1/2" propeller-style blades to create maximum air flow; two integrated 2.1 A USB ports; oversized carrying handle; and a large easy-to-read control panel.

**Snap-on® JETWASHER Air Water Jet Washer** – This tool combines both water and compressed air with an adjustable flow for safe and effective cleaning of cars, trucks, motorcycles, recreational vehicles and an even cleaner workspace at home or in the shop. Separate air and water controls allow for effective washing, rinsing and drying of surfaces. The tool has an integrated 3/4" threaded hose connection, a separate adaptor for quick-connect water hoses, and the wide nozzle prevents backsplash. The Snap-on® JETWASHER body is made of long-lasting, lightweight, and durable Acetal plastic that won't scratch surfaces. The optional JETWASHNOZL flusher nozzle can also be used for flushing coolant systems and heater cores.

Find out more about these and other Snap-on® tools and products by contacting your participating Snap-on franchisee or other representative, visiting [www.snapon.com](http://www.snapon.com) or calling toll-free 877-SNAPON-4 (877-762-7664).

### **About Snap-on Tools**

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.7 billion, S&P 500 company located in Kenosha, Wisconsin, with operations throughout the world.
