Snap-on gifts guaranteed to make spirits year around

KENOSHA, Wis. (Jan. 27, 2020) – The holidays have come and gone, but these Snap-on® products make perfect gifts all year. Here are some product highlights:

1) Snap-on® ACYWRNCHRING Tool Organizing Wrench Ring

Help keep the technician organized and increase work efficiency with the Snap-on® ACYWRNCHRING. It keeps an entire set of wrenches together on one easy-to-transport ring. Users can quickly pop tools on and off of the 12 clips included. This is ideal for mobile technicians moving to multiple jobs on the road or throughout the shop.

2) Snap-on® EECT201BL Cord-Free Pocket DC Circuit Tester

Give the gift of convenience this year with the EECT201BL. This cord-free tool can be used for quick detection of DC voltage from 3–24 V DC on autos, trucks, motorcycles and more. When DC voltage is present, the tool vibrates, sounds an audible beep and displays a bright LED light to alert the user. The pocket clip keeps the first need diagnostic tool ready for work.

3) Snap-on® CTS761ADB 14.4 V 1/4" Hex MicroLithium Cordless Screwdriver (Tool Only)

The powerful Snap-on® CTS761ADB is a gift that keeps on giving 150 in-lb of torque output with a two-speed gearbox from 400/1,400 RPM. It features a 300 in-lb manual spindle lock. This screwdriver can master the darkest jobs with its twin-beam headlight that illuminates any work area. The nine-position clutch allows users to dial in for the proper torque. A built-in brake keeps it from throwing fasteners, and its glass-filled nylon housing and cushion grip make it strong and comfortable. A built-in gauge displays battery charge status, and a 2.5Ah separate battery (not included) charges in just 70 minutes, so there's less down time.

4) Snap-on® MTTL900-KIT Multimeter “Y” Terminal Adaptor Kit

This 12 and 24 V DC automotive terminal kit can be used with EEDM Series Digital Multimeters or EECT Circuit Testers (sold separately). Its unique “Y” adaptor enables testing of single terminal or inline testing of a circuit or terminal harness. The 34 color coded adaptors make them easy to find and select for quick connections, and its high-quality silicon wire is flexible in cold conditions and protected against high-heat conditions. All this comes in an easy-to-store carry case that is easy to store in a 4" tool storage drawer.

5) Snap-on® SOVAC16 2-Stage 16-Gallon Wet/Dry Vac

The SOVAC16 helps tackle the messiest jobs with its 11 amp 2-stage motor and six peak HP. Its extra-long 30' cord increases its mobility throughout the worksite and features a 10' x 1-1/2" crush-proof industrial hose. It includes four cleaning accessories: Car Claw Nozzle, Utility Nozzle, Dust Brush, and Crevice Tool with an onboard accessory storage.

Customers can learn more about these “Snappy” tools by contacting their Snap-on franchisee or other sales representative, visiting www.snapon.com or calling toll free 877-SNAPON-4 (877-762-7664).
