## **New Video Showcases Productivity Benefits of Hofmann monty 8800 Tire Changer**

**Conway, AR – June 27, 2022** – The Hofmann<sup>®</sup> monty<sup>®</sup> 8800 tire changer is the perfect solution for high-volume shops looking to increase performance, safety and productivity. A new video highlights this innovative tire changer's notable features and shows why the *monty* 8800 is a must-have for shops looking to increase their tire-changing business.

“Our [new video](#) showcases all of the productivity-enhancing features and benefits of the monty 8800 tire changer and details how easy it is to use,” said Leandro Camargo, product manager for Hofmann. “Shops looking to grow their wheel service business should view the video to see all of the advantages the monty 8800 has to offer.”

The [Hofmann monty 8800](#) is a leverless tire changer that features smartSpeed™ technology, which automatically measures torque and reduces speed during critical operations to ensure machine integrity, operator and wheel safety. The integrated wheel lift on the *monty* 8800 is pedal operated and assists technicians in lifting and positioning heavy tires, helping to reduce fatigue and increase productivity.

Other unique features of the *Hofmann monty* 8800 include the dynamic bead breaker, which has synchronized dual disks for precision positioning on upper and lower beads and an adjustable tilt for hard sidewall tires, while the lower bead camera monitors and assists in controlling operation on the lower bead. The top side bead seater on the 8800 is an ergonomic nozzle that injects a high-speed air blast into the tire, rising the bead to seal the tire to the rim.

The fast and effortless quickLOK™ automatic wheel clamping, unified with center post design, simplifies the clamping process and provides more flexibility in wheel clamping, resulting in no wheel damage. Unlike a tabletop tire changer there is no jaw protection required and no need to push the rim into the jaws.

Customers can learn more about the new *Hofmann monty 8800 tire changer* and other *Hofmann* wheel service products by calling 800-251-4500 or visiting [www.hofmann-equipment.com](http://www.hofmann-equipment.com).
