Snap-on Under Hoist Stands Are a Lift Above the Rest

New UHS1500 and UHSL1500 eliminate the need for constant cranking

KENOSHA, WI (February 22, 2024) – Undercar service stands from Snap-on are uniquely designed to meet customer demand for an under hoist stand that saves valuable technician time. These gamechanging stands are a lift above the rest with a release mechanism that quickly positions the saddle to adapt to various undercar components and resist turning, saving critical shop time.

Designed to cater to different vehicle lift heights, the Snap-on[®] UHS1500 is optimized for maximum lift scenarios, while the Snap-on[®] UHSL1500 excels when vehicles are lifted halfway, ensuring precise alignment and support for a range of services. Both hoist's hand cranks make small height adjustments easy and precise. The foot pedal allows for hands-free, quick alignment of components and folds for compact storage. The UHS1500 can reach a service height of 80-1/8 inches (2035 mm) while the UHSL1500 reaches a service height of 52-3/8 inches (1,330mm) and both have a 3/4-ton weight capacity.

Customers can learn more about the Snap-on[®] UHS1500 and UHSL1500 Under Hoist Utility Stands by contacting their participating Snap-on franchisee or representative, calling toll free 877-SNAPON-4 (877-762-7664) or visiting <u>www.snapon.com</u>
