Service More Vehicles with General Repair Coverage in Software Bundle 11.4

LINCOLNSHIRE, IL, Nov. 28, 2011 – With Bundle 11.4, the latest software upgrade from Snap-on, there is no need to fear the unknown. Professional technicians can confidently work on more vehicles knowing that they have the solutions needed to master the unknown and conquer almost any general repair problem that rolls into their service bay. The general repair coverage in Software Bundle 11.4, in addition to all of the features and coverage from the previous upgrades, helps technicians be more efficient and productive in the repair shop.

General repair coverage includes, but is not limited to:

- Ford Cylinder Contribution Test (PTEC Controller Equipped)
- Honda Integrated Motor Assist (Hybrid)
- GM Idle Learn and Reset
- GM H02S Heater Learn
- Mitsubishi Engine Learned Value Reset
- Honda Information Platform System
- Hyundai Engine Resets
- Toyota Engine Memory Relearn/Reset
- Toyota Automated EVAP Tests
- Hyundai Immobilizer

“A Ford misfire is very common and difficult to diagnose,” said Bill Bruno, vice president of sales and marketing for Snap-on Diagnostics. “Previous upgrades offered abilities to diagnose ignition and other cylinder efficiency problems for over 20 million Ford vehicles. The Ford cylinder contribution test and other new diagnostic capabilities in Bundle 11.4 bring the total to 38 million vehicles covered. Shops that work on Fords really should have Software Bundle 11.4 to best serve their customers and remain competitive.”

“The convenience of having access to so much information at your fingertips, at the vehicle, when you need it is awesome,” said Phillip Bailey, Phil’s Mobile Service, Thunder Bay, Ohio. “With each release of the software, it gets even better.”

Software Bundle 11.4 includes new features and coverage, plus all of the features and coverage from the previous upgrades. Get over 92,300 new and enhanced codes, tests, tips and data, plus access to over 44,445 new systems for model years 1996 to 2011, including enhanced 2011 domestic and Asian coverage for General Motors (GM), Mazda, Infiniti, Lexus, Nissan, Scion, Subaru and Toyota. In addition, Software Bundle 11.4 offers over 5,700 component test meter (CTM) tips.
