## **Wireless Scan Module Conversion Kit Available for VERUS<sup>®</sup> Diagnostic & Information System**

**LINCOLNSHIRE, IL, Sept. 21, 2011** – What’s on every VERUS<sup>®</sup> owner’s wish list? Wireless freedom! With Snap-on’s wireless scan module conversion kit (EAK0294B21A), customers can add wireless freedom and keyless simplicity to their VERUS Diagnostic & Information System.

“With the Snap-on wireless scan module conversion kit, VERUS owners will have the ability to connect to scanner functions from anywhere in the automotive repair shop,” said Mark Schaefer, director of marketing, Snap-on Diagnostics. “For example, watch live sensor data while spinning a wheel, or run a bidirectional test while moving freely around the vehicle.”

Features and benefits of the VERUS wireless scan module conversion kit:

- Simplicity - keyless scan module covers all OBD-II applications with a single adapter, no need to switch keys
- Scan wirelessly with remote control of the scan module – read and clear codes, view live data and run functional tests, relearns and adaptations from anywhere in the bay
- Includes wireless scan module, OBD-II data cable, data cable for adapters, USB cable and instructions

To learn more about any of Snap-on’s wireless scan module conversion kit, talk to a Snap-on representative or visit <http://diagnostics.snapon.com>.

### **About Snap-on Diagnostics:**

Snap-on Diagnostics is part of Snap-on Incorporated, leading global innovator, manufacturer and marketer of tool, diagnostic and equipment solutions for professional tool users. Products are sold through its franchised dealer van, company-direct sales and distributor channels, as well as over the Internet. Founded in 1920, Snap-on is headquartered in Kenosha, Wisconsin.
