Get More Coverage with New Software Bundle 12.2

LINCOLNSHIRE, IL, May 24, 2012 – The new Software Bundle 12.2 from Snap-on is the most powerful upgrade ever, packed with new and enhanced coverage including brand new Suzuki 2000-2011 coverage for engine, transmission, antilock brakes and airbags, as well as new 2011 coverage for Ford, Lincoln, Honda, Acura, Hyundai, Kia and Mitsubishi vehicles. Plus, Software Bundle 12.2 gives technicians access to over 50,400 new codes, tests, tips and data. It also offers model year updates for VERUS[®], VERDICT[™], MODIS[™], SOLUS[™] series and ETHOS[®].

“With added in-demand coverage for vehicles going back to 1998 as well as 2011 model year updates, our new Software Bundle 12.2 helps technicians embrace the unknown and master it by removing the need for guessing,” said Leian Wunderlich, marketing manager, Snap-on Diagnostics. “Whether the repair is driveability, undercar, transmission, diesel, body control or something else, technicians can confidently and quickly diagnose and repair vehicles knowing they have the most powerful upgrade at their fingertips.”

Software Bundle 12.2 contains the most extensive coverage outside the factory tool, including:

- GM 6.6L Turbo Tests
- Ford Instrument Sweep Gauge Tests
- Toyota Air Injection Test
- GM Theft Deterrent, Keyless Entry and Remote Function Actuation (RFA) Module

Get more coverage than ever:

- Mazda ABS Function Tests
- Lexus Air Suspension
- Toyota VIN Writing
- Toyota Immobilizer System
- Toyota Engine Memory Reset
- Toyota Door and Mirror Modules
- Honda and Acura Occupant Detection

“It’s really important for me to keep the tools up-to-date,” said Patrick Weber, owner of Weber Automotive Service Inc. “The software releases are very important because they contain even more factory capabilities than the previous versions.”
