## **Expand Coverage with New European Vehicle Software Kit for VERUS<sup>®</sup> PRO**

**LINCOLNSHIRE, IL, October 10, 2012** – The European Vehicle Software Kit for VERUS<sup>®</sup> PRO from Snap-on provides everything that professional technicians need to expand the capability of their new scan tool to include the most popular 1992 through current European vehicles such as for Audi<sup>®</sup>, BMW<sup>®</sup>, Jaguar<sup>®</sup>, Land Rover<sup>®</sup>, Mercedes<sup>®</sup>, MINI, SMART<sup>®</sup>, Volkswagen<sup>®</sup> and Volvo<sup>®</sup>.

“With the new European Vehicle Software Kit for VERUS PRO, technicians have access to deep coverage with codes, live data (PIDS), functional tests, module coding, relearns and adaptations,” said Mark Schaefer, director of marketing, Snap-on Diagnostics. “In addition, they have OEM-specific coverage for dozens of systems including engine, body, transmission, airbag, ABS, instrument, service lights, climate, TPMS, steering, chassis, immobilizer and more.”

The European Vehicle Software Kit for VERUS PRO includes: the European software activation on a USB memory stick, VW1 adapter, MB1 adapter, MB2A adapter, BM1B adapter and data cable.

VERUS PRO is a new top-of-the-line diagnostic and information system that combines an exclusive suite of tools to give professional service technicians the ability to bring all of the answers to the bay wirelessly, in one tool, to manage the job from start to finish.

VERUS PRO elevates capabilities way beyond the original VERUS<sup>®</sup>, and integrates everything that technicians need into one tool: scanner, scope, data manager, waveform library, schematics, TSBs, online technical forum, Fast-Track<sup>®</sup> Troubleshooter, guided test procedures and verified repair tips. The optional ShopKey<sup>®</sup> Repair Information System gives technicians quick access to complete repair guidance for virtually any light vehicle on the road.
