Snap-on Introduces New Software Bundle 12.2

LINCOLNSHIRE, IL, April 2, 2012 - New Software Bundle 12.2 is the most powerful upgrade ever with new and enhanced coverage to save technicians time diagnosing and completing the job. Software Bundle 12.2 includes brand new Suzuki 2000-2011 coverage for engine, transmission, antilock brakes and airbags. It provides new and enhanced codes, data, tests and tips for 1998-2011 domestic and Asian models, plus new 2011 Ford, Lincoln, Honda, Acura, Hyundai, Kia and Mitsubishi coverage. This new software upgrade is available to VERUS[®], VERDICT[™], MODIS[™], SOLUS[™] series and ETHOS[®] owners.

“With Software Bundle 12.2’s new and enhanced features and coverage, plus all of the coverage from previous software bundles, technicians can repair cars quickly and accurately,” said Bill Bruno, vice president of sales and marketing, Snap-on Diagnostics. “In fact, Software Bundle 12.2 helps keep repairs in the shop instead of them ending up at a competitor or the dealer.”

Software Bundle 12.2 contains the most extensive coverage outside the factory tool, including:

- GM 6.6L Turbo Tests
- Ford Instrument Sweep Gauge Tests
- Toyota Air Injection Test
- GM Theft Deterrent, Keyless Entry and Remote Function Actuation (RFA) Module

Get more coverage than ever:

- Mazda ABS Function Tests
- Lexus Air Suspension
- Toyota VIN Writing
- Toyota Immobilizer System
- Toyota Engine Memory Reset
- Toyota Door and Mirror Modules
- Honda and Acura Occupant Detection

Plus, new domestic and Asian tips and timesavers from Snap-on’s exclusive Fast-Track[®] Troubleshooter with coverage back to 1980:

- GM timesavers to help with electrical issues
- Ford common problems for powertrain issues that are seen often
- Nissan symptom tips for intermittent driveability problems
- Mazda symptom tips for tough to diagnose, intermittent ABS failures

Snap-on diagnostic tools equipped with the optional European coverage available for Software Bundle 12.2, help technicians to take on jobs from general repair to driveability, body control and suspension issues for Audi, BMW, Land Rover, Mercedes-Benz, Volkswagen, Volvo and Smart Car.
