Snap-on Tool of the Month: Orbital Low Vibration Air Sander

KENOSHA, Wis. – June 16, 2010 – Power and performance. That is what you get with Snap-on's 6-inch orbital low vibration sander (PS4612). This versatile tool delivers 12,000 RPMs with unsurpassed control and comfort.

"The Snap-on 6-inch orbital low vibration sander is a difference-maker in the workplace if you are looking to improve productivity and efficiency," said Jim Martin, product manager for Snap-on. "Its ergonomic grip makes it easy and comfortable to use while its innovative design allows the tool to last a long time without needing repair or service."

The features and benefits of the Snap-on 6-inch orbital low vibration air sander (PS4612) include:

- Soft, ergonomic adjustable grip is indexable to fit the user's hand - internal notches on inside of grip provide additional comfort and prevent grip from rotating after initial positioning
- O-ring sealed motor extends tool life by preventing dust and debris from entering mechanical components
- S-shaped paddle to better fit the curve of the user's hand to provide comfort and resist fatigue
- Field serviceable motor for fast service/replacement turn around, shortening repair down time
- bearing dust shield extends motor life by preventing contamination of lower motor bearings
- Robust front spindle and precision balanced crank extend motor life and provide smoother operation with minimal vibration

Customers can find out more about Snap-on's 6-inch orbital low vibration air sander (PS4612) by contacting their Snap-on representative, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
