Let These Snap-on Specialty Tools Make Your Workload Easier

Ford Ball Joint Adaptor, Ford Torque Adaptor Sure to Improve Production

KENOSHA, Wis. – February 10, 2010 – Challenging jobs need special tools. Snap-on manufactures a wide assortment of specialty tools that are designed to improve productivity and efficiency while easing the overall workload, including the BJP1-25 Ball Joint Adaptor and the Torque Adaptor (SRD35). These tools are specifically designed to help service technicians perform more jobs during the course of the day.

“There are certain jobs that require special tools and Snap-on has a wide variety of specialty tools that are sure to enhance production in the workplace,” said Scott Amundson, product manager for Snap-on. “The BJP1-25 ball joint adaptor and the SRD35 Torque Adaptor are two prime examples of Snap-on quality – specialty tools that are designed and manufactured to make service technicians jobs that much easier.”

The BJP1-25 Adaptor is used with the BJP1 Master Ball Joint/Universal Joint Press Set for quick removal and installation of lower ball joints on Ford F450 and F550 trucks from 2005 to 2007.

The SRD35 Torque Adaptor is for use with the Ford 6.0L Power Stroke diesel engine equipped vehicles including 2003-2007 Ford F-Series Trucks and Excursions (including ambulance, law enforcement and shuttle bus conversions) and features:

- Use of ¾-inch drive ratchet/torque wrench transmits high torque necessary to loosen and tighten head bolts, with less strain on the technician.
- Eliminates the need to remove the truck/van cab from the chassis to access the rear head bolts saving time and preventing damage to the rear heat shield.
- Eliminates the need to remove the evaporator housing, saving two hours of time and the additional cost of refrigerant added during A/C recharging.
- When coupled with an SWM18, 18mm shallow socket, the SRD35 can access all of the head bolts eliminating the need to change tools or remove the adaptor during the job.

Customers can find out more about Snap-on’s BJP1 series of adaptors and the SRD35 Torque Adaptor by contacting their participating Snap-on franchisee, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
