Snap-on Tool of the Month: New 1/4-Inch Hex Drive Micro-Cordless Impact Driver

KENOSHA, Wis. – October 22, 2012 – Versatile and efficient, the new Snap-on® 1/4-Inch Hex Drive Micro-Cordless Impact Driver with Quick Change Chuck (CT661QC) is the perfect cordless impact for hard-to-reach areas.

“Our new CT661QC will make a big impact on the bottom line because it has so many applications,” said Rodger Isetts, product manager for Snap-on. “It is easy to use, extremely durable and its cushion grip handle provides positive tool control with less fatigue. The CT661QC, with its quick change chuck, is the ideal impact to use on fender bolts, valve cover bolts and hard to access areas like under the dash. It is also perfect for small engine repairs and has numerous motorcycle applications.”

The new *Snap-on* 1/4-Inch Hex Drive Micro-Cordless Impact Driver with Quick Change Chuck (CT661QC) has 50 ft. lbs. of torque output and the following user benefits:

- Patent-pending oversized forward/reverse cushion toggle style variable speed trigger allows for one-hand operation to toggle quickly from forward to reverse
- Twin-beam headlights illuminate work area
- Built-in brake stops the tool from throwing sockets and fasteners
- Quick 30-minute battery charge for less down time
- Over current protection guards the electronics
- Under voltage protection will not overdraw the battery
- Built-in gauge measures the state of the battery charge
- Screened motor keeps debris from entering critical components
- Over and under temperature protection keeps tool operating at peak efficiency
- Glass-filled nylon housing for durability

The CT661QC can be used on 12 mm and smaller fasteners, 12 mm oil and transmission pan bolts and water pump pulley bolts. It is also versatile and powerful enough for splash shield removal and installation as well as installing door lock assemblies and interior seat removal & installation.
