Snap-on Drivers Finish 1-2 at NASCAR Truck Race in Atlanta

Ryan Newman Wins His Debut Truck Race; Ron Hornaday Second

KENOSHA, Wis. – October 30, 2008 – Two Snap-on drivers traded the lead twice in the last eight laps before Ryan Newman edged Ron Hornaday by .377 seconds to capture the checkered flag at the E-Z-Go 200 truck race at the Atlanta Motor Speedway last Saturday. It was Newman's first-ever truck series race while, with his second-place finish, Hornaday stayed in second overall in the points standings and narrowed the gap to 31 points in the race for the truck series championship.

"What an incredible race and an amazing finish," said Alicia Smales, vice president of marketing for Snap-on Tools. "It was awesome to see the Snap-on drivers cross the finish line first and second. We want to congratulate Ryan on a great win and Ron on moving closer to the points lead. We also want to wish Ron good luck on his quest to defend his series championship."

Newman passed his teammate Hornaday on the backstretch of the final lap to capture the win in his debut in a truck series race. Hornaday had led by half a truck-length at the start of the final lap, but Newman fought back on the outside to make the winning pass when Hornaday slipped in the second corner. Though Hornaday is racing for a championship, he gave Newman room to maneuver in the closing laps.

"He raced me clean -- I got to say that first and foremost," Newman said. "He left me room. He could have pinched me off twice, but he raced me like a gentleman. I really didn't know what to expect. I was pretty loose the whole race. I saw him (Hornaday) slipping, and I started to run him down."

The truck series has three races remaining with the next stop at the Texas Motor Speedway on Halloween night. The last two races are November 7 in Phoenix and November 14 in Miami.

About Snap-on Tools
