Give Dad Some Torque and Finesse with Snap-on's Father's Day Special

Get Two Versatile Snap-on Screwdrivers in One Great Kit

KENOSHA, Wis. – June 3, 2010 – Give Dad power and performance, and maybe a little finesse this Father's Day with Snap-on's CTS561CLSK screwdriver kit. The versatile kit contains the popular Snap-on cordless screwdriver along with a Snap-on ratcheting screwdriver, plus shanks and bits added in for good measure.

"The CTS561CLSK is a terrific gift for Dad," said Rodger Isetts, product manager for Snap-on. "We took our standard cordless screwdriver and modified the gear box to accept the same shanks that are used with our Snap-on ratcheting screwdriver. Then, we combined it with our ratcheting screwdriver, shanks and bits to create a very special Father's Day kit. The end user now has the option to use the power tool when he needs more torque or use the ratcheting screwdriver when the application calls for more finesse, such as working on non-marking surfaces like stainless steel."

The CTS561CLSK kit contains a Snap-on cordless screwdriver and battery recharger plus a Snap-on ratcheting screwdriver, bits and shanks, and it comes with a handy and sturdy carrying case. The special CTS561CLSK is available only from participating Snap-on franchisees and quantities are limited. To find out more information, visit www.snapon.com or contact your Snap-on franchisee.
