FOR IMMEDIATE RELEASE

SUPER STORAGE: SNAP-ON INTRODUCES ROLL CAB WITH SUPER-WIDE DRAWERS Maximized convenience and capacity meet reliability and strength

KENOSHA, Wis. (June 11, 2007) – For those who want it all – and want it all at their fingertips – the Super Wide Drawer Roll Cab (KRL1033) is the latest must-have tool storage unit from Snap-on Tools Company. Boasting the widest drawers in the industry – an impressive 67 inches – the roll cabinet is sure to meet even the biggest tool storage needs.

With a 5-inch and 3-inch depth, the roll cab's super-wide drawers provide an unobstructed view, allowing for maximized accessibility and convenience without compromising load capacity. With more tools available at once, everything a technician needs is within reach to get jobs done faster.

The roll cab features Snap-on's exclusive ISO-Ride caster design, which lasts up to twice as long as the previous spring-loaded version and has tested to an additional 200 pounds of weight capacity.

The new caster design also allows for an improved ride, making it easier than ever to move the roll cab around the shop. Isolation pads absorb impact for 30 percent better shock resistance, and vibration is dampened to create a smoother ride and prolong the life of the cab. In addition, the roll cab has an enhanced locking brake design, making it just as simple to stop as it is to move.

The Super Wide Drawer Roll Cab is available in multiple Snap-on colors and can be customized with a variety of options, accessories and drawer configurations, and it comes with Snap-on's industry-leading lifetime warranty.

Customers can find out more about the Snap-on Super Wide Drawer Roll Cab (KRL1033) by contacting their local Snap-on representative, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662). More information about Snap-on's tool storage products can be found at www.theundisputedchamp.com.
