PowerBank Sets EPIQ Apart from Conventional Storage Units

Giving Technicians the Power to Do More Within Reach

KENOSHA, Wis., November 18, 2008 – Once service technicians see all of the innovative features that are built into Snap-on's new EPIQ tool storage unit, they'll never go back to their boring, old tool storage ways. EPIQ is a whole new approach to tool storage; it's a complete productivity system that's designed to work the way that today's technicians do.

One of the revolutionary features that sets EPIQ apart from conventional storage units is its PowerBank. This lockable, vertical drawer bank has built-in power access for recharging tools and batteries. PowerBank offers plenty of space to hold cordless and air powered tools so that every one of them is easily accessible and fully charged. Technicians won't have to waste any more of time trying to untangle cords or move tools around to find the right one for the job.

"EPIQ makes it easy for technicians to be organized because the PowerBank feature stores all of their power tools right at their fingertips," said Chris Potter, president of tool storage for Snap-on Tools. "And because it includes a power source, technicians simply plug in their batteries at night, lock it up for security, and they are full-charged and ready to go in the morning. This translates into huge time savings and improved productivity."

To get full details and specs on EPIQ and its PowerBank feature, contact a local Snap-on franchisee or visit www.snapon.com/epiqpower.

About Snap-on Tools:

Snap-on Tools Company, LLC is a leading global innovator, manufacturer and marketer of tools, diagnostics and equipment solutions for professional users. Product lines include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions which are used by technicians and professionals at vehicle dealerships and repair centers and in the marine, powersports and aviation industries. Snap-on is one of the largest non-food franchise companies in the world, selling its products through more than 4,000 franchisees worldwide and through company-direct sales and over the Internet. Snap-on Tools is a subsidiary of Snap-on Incorporated, which was founded in 1920 and is a \$2.8 billion, S&P 500 company headquartered in Kenosha, Wis.
