Snap-on Tools – Ford Spark Plug Extractor Kit (FSPK)

Snap-on Tools has recently introduced a Ford Spark Plug Extractor Kit (FSPK) to help techs remove broken spark plugs from cylinder heads without removing the actual heads – saving precious time and allowing techs to be more profitable and productive..

The kit works specifically for models that have either the Ford Triton® 4.6L V8 3-valve engine, the Ford Triton® 6.8L V10 3-valve engine, or the Ford Triton® 5.4-liter, 3-valve engine that is featured on the 2004-05 Ford F-Series (F150, F250 and F350) pick-up trucks; 2004-05 Ford Super Duty pick-up truck; 2004-05 Ford Expedition; and the 2004-05 Lincoln Navigator.

The Ford Spark Plug Extractor Kit from Snap-on includes: a barrel (FSPK1); threaded shaft (FSPK2); nut (FSPK3); thrust washer (FSPK4); vinyl cap (FSPK5); and tap (T910M).

Customers can find out more about the Ford Spark Plug Extractor Kit (FSPK) by contacting their local Snap-on representative, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
