# Light it up Right with New Snap-on High Output Flashlights

**KENOSHA, Wis. – September 20, 2011** – Snap-on's new high output flashlights provide the power and performance needed to work in dark areas. Featuring the latest technology in high output LED lighting as well as an anti-roll design and rubberized non-slip grip, these new flashlights will be a welcome addition to any service technicians' toolbox.

"The Snap-on new high output flashlights were designed with our customers in mind," said Dan Batassa, product manager for Snap-on. "These three long lasting, high power flashlights 'light it up right' and are sure to be a great asset in the service bay or on any mobile repair vehicle."

## **Focusing AA LED Flashlight (ECFSN1AAF)**

- Exclusive focus-lock system
- One-handed slide focus
- 100 lumens of light output from a single AA alkaline battery
- Three hours estimated run time
- 426 feet beam distance
