# **New Snap-on Ultra-Light Timing Light Does More Than Just Set Timing**

## *Versatile New Tool with Measuring and Timing Capabilities*

**KENOSHA, Wis. – December 1, 2011** – The new Ultra-Light Timing Light (EETL500) from Snap-on is more than a device to set timing. It is a multipurpose tool capable of measuring engine RPM, checking battery voltage and measuring secondary firing voltages and burn times. The new timing device not only features a diamond plate underside and large backlight LCD screen, it also has a dual LED flashlight in the patented pivoting head.

“Our timing light is a new classic. The Snap-on EETL500 is perfect if you work on older muscle cars with distributors and has some late model applications as well. It has a nostalgic look with modern features and functions,” said David Brekke, category manager for Snap-on. “The durable ultra-light and ergonomic design allows technicians to work with comfort.”

The new Ultra-Light Timing Light (EETL500), not only provides measuring and timing functions, it also measures and displays kV readings, and performs ignition timing and systems tests. The uses of the EETL500 are highlighted in detail below:

- **Setting ignition timing** - works on both 2 & 4 Cycle DIS and conventional engines and most aftermarket ignition systems without solid core wires
- **Measuring engine RPM, ignition advance and dwell** - for all in one basic ignition system tester
- **Testing secondary ignition system** - allows measurement of burn voltage and burn time
- **Checking battery voltage** - provides a quick visual indication of the current state of the battery
- **Measuring and displaying kV readings** - view individual cylinder firing voltage, perform snap throttle and coil stress tests
- **Diagnosing the following** - isolates faulty ignition wires, plugs, modules and coils

Customers can learn more about Snap-on’s Ultra-Light Timing Light (EETL500) by contacting their participating Snap-on franchisee or representative, visiting [www.snapon.com](http://www.snapon.com) or by calling toll free 877-SNAPON-4 (877-762-7664).

### **About Snap-on Tools**

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, diagnostics and equipment solutions for professional users. Product lines include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions which are used by technicians and professionals at vehicle dealerships and repair centers and in the marine, power sports and aviation industries. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-

direct, distributor and Internet channels. Snap-on Incorporated, which was founded in 1920, is a \$2.6 billion, S&P 500 company located in Kenosha, Wis. with operations throughout the world. For additional information, visit [www.snapon.com](http://www.snapon.com).
