Time is Money: Blue-Point 30-Piece Alternator Puller Kit Improves Productivity and Profits

KENOSHA, Wis. – August 7, 2012 – Spending time looking around the shop for a variety of tools to work on a specific job, like installing or removing alternator decoupler pulleys, is not a very productive way to conduct business. With the new Blue-Point® 30-Piece Alternator Puller Kit (ADT30KT), you will have all the tools you need in one sturdy kit to save time on those repairs and help improve your bottom line.

“Millions of vehicles on the road today have over-running alternator decouplers (OAD) rather than a conventional pulley,” said Brian Woller, category manager. “Servicing these OADs as well as one way clutches (OWC) has become a challenge for a majority of service technicians because they don’t have the right tools on hand. Our Blue-Point 30-Piece Alternator Puller Kit provides the assortment of tools you need to service OADs and OWCs efficiently, increasing productivity and profitability.”

***Blue-Point* 30-Piece Alternator Puller Kit (ADT30KT)**

- Job: Remove/install alternator decoupler pulleys either OWC (one way clutch) or OAD (overrunning alternator decoupler)
- Challenge: OWCs and OADs exist on over 20 million vehicles and finding the right tools to service these parts can be a challenge
- Solution: *Blue-Point* ADT30KT Alternator Puller Kit eliminates the need to shop around for hard-to-find tools and reduces service bay downtime. The ADT30KT kit includes varying lengths of hex, torx and spline configurations, allowing the user to handle unique combinations for a difficult task.

Customers can find out more about time-saving tools from Snap-on by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com or by calling toll free 877-SNAPON-4 (877-762-7664).
