Are You Ready For Air Conditioning Season?

New Snap-on A/C Catalog offers an Array of A/C Tools and Equipment Including a New Hybrid-Capable A/C Recovery/Recycle/Recharge Machine

KENOSHA, Wis. – March 18, 2013 – The new Snap-on A/C Equipment and Tools catalog features a comprehensive offering of the latest innovative Snap-on air conditioning service products. Included in the catalog is the new Hybrid Capable A/C Recovery/Recycle/Recharge machine (EEAC325BH) which helps service technicians properly and safely service both hybrid and non-hybrid vehicles. The Snap-on A/C Catalog offers special, limited-time pricing on many products in the catalog.

“More and more of our customers are seeing hybrid vehicles coming into their shops, so we developed a new hybrid-capable A/C recovery/recycle/recharge machine. What makes this unit valuable to shop owners is that it can also be used on non-hybrid vehicles,” said Dan Batassa, category manager for Snap-on. “In addition to the EEAC325BH, the Snap-on A/C catalog features a wide variety of A/C tools and equipment any shop would need to increase productivity and profitability this season.”

The new Snap-on A/C Equipment and Tools Catalog includes three models of A/C recyclers as well as a wide assortment of accessories, gauges, leak detection tools and kits. Service technicians can increase the shop’s performance with vacuum pumps, UV lights, A/C hose crimper sets and digital and infrared thermometers as well as flaring tool sets. The catalog also highlights special pricing on service tools such as a flush kit, tube benders and cutters and an adjustable spanner wrench.

Another feature included in the Snap-on A/C catalog is an easy-to-use chart on how to improve a shop’s air conditioning business and maximize service opportunities.

Customers can request a copy of the Snap-on A/C Equipment and Tools Catalog by contacting their participating Snap-on franchisee or representative or by viewing it online at www.snapon.com.

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks.
