New Snap-on Cutoff Tools a “Must Have” for All Types of Cutting Applications

KENOSHA, Wis. – February 4, 2013 – Service technicians who have a heavy work load of cutting jobs need to look no further than the new Snap-on® one horsepower cutoff tools. The three-inch (PT430) and four-inch angle (PT490) cutoff tools are versatile and durable ‘must have’ tools to improve performance and productivity for all kinds of cutting applications.

“Our new cutoff tools are designed to help service technicians perform more jobs during the course of a day,” said Jim Martin, category manager for Snap-on. “The PT430 and PT490 provide increased speed, are easy to use and have an extremely comfortable grip for less user fatigue. Techs will see increased efficiency and performance with these tools as they are ideal for cutting exhaust pipes and hangers, body panels, hoses and flat iron.”

The new *Snap-on* PT430 and the PT490 have many similar features, including:

- Powerful thermally balanced air motor cools internal parts and tool surface
- Double bearings for smooth operation
- Built-in speed regulator for easy adjustment
- Rear-diffused exhaust directs exhaust away from work area
- Paddle-style trigger/safety lever for easy operation
- Precision machined steel end plates
- Adjustable wheel guard so tool can be used at any angle

For heavy duty jobs, the PT490 four-inch angle cutoff tool is the choice, featuring an instinct side handle for increased leverage and a steel angle head with heavy duty spiral bevels gears for tool longevity.

Customers can learn more about the new *Snap-on* cutoff tools (PT430 and PT490) by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com/powertools or by calling toll free 877-SNAPON-4 (877-762-7664).
