## **Tool of the Month: New Snap-on Specialty Tool for Mack, Volvo Trucks**

**KENOSHA, Wis. – September 3, 2014** – The Snap-on® 1/2-inch Drive 14mm 6-point Impact Socket (S6314) is a new, durable specialty tool for Mack® and Volvo® trucks that allows service technicians to easily remove and install the camshaft cap bolts on trucks with the MP8 series engine.

“The S6314 features deeper broach depth, which is critical to the application to accommodate the longer threads found on the camshaft cap bolts,” said Scott Amundson, product manager for Snap-on. “Snap-on customers will likely see an immediate increase in efficiency when using the S6314 because the Flank Drive grips the fastener on the flanks/flats, increasing torque by 15-20 percent, preventing the fastener from rounding and increasing the life of the socket.”

Customers can learn more about the new *Snap-on* 1/2-inch Drive 14mm 6-point Impact Socket (S6314) by contacting their participating Snap-on franchisee or representative, visiting [www.snapon.com/handtools](http://www.snapon.com/handtools) or by calling toll free 877-SNAPON-4 (877-762-7664).

### **About Snap-on Tools**

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and Internet channels. Snap-on Incorporated, which was founded in 1920, is a \$3.1 billion, S&P 500 company located in Kenosha, Wis. with operations throughout the world.
