Snap-on Announces Limited Edition SOLUS Ultra Promotion

LINCOLNSHIRE, IL, May 6, 2013 – Professional technicians can now order a special limited edition SOLUS Ultra® scan tool in either extreme green (EESC318PJJ) or electric orange (EESC318PJK), while supplies last. Designed for fast operation, simple connection and complete scanning abilities, SOLUS Ultra is a full-function, OEM-specific scan tool that helps technicians quickly identify the problem and get to the repair.

“Our limited edition SOLUS Ultra in extreme green and electric orange offers a unique opportunity for technicians to match their scan tool to their personality,” said Mark Schaefer, director of marketing, Snap-on Diagnostics. “These extreme colors are only available for a short time, so get one before they’re gone.”

Features of SOLUS Ultra include:

- One simple keyless connector for all OBD-II applications
- OEM-specific deep coverage for over 40 makes (Euro optional)
- Exclusive Fast-Track® Troubleshooter tips and timesavers
- Unique cause and effect diagnostics that displays functional tests side-by-side with live data
- Steady-charge battery technology that charges directly from the vehicle
- Big best-in-class seven inch color touchscreen for detailed results
- Never wait to boot up – powers up in only 10 seconds
- Coverage for dozens of systems, including new technology such as TPMS, steering sensor, hybrid power and body controls

SOLUS Ultra uses icon-based navigation and has an embedded operating system dedicated to diagnostic functions for speed and reliability. It offers enhanced scanner coverage for 1980-newer domestic and Asian vehicles, with European vehicle coverage optional. Capabilities include codes, live data (PIDS), functional tests, relearns and adaptations.
