

MOBILE TOOL SOLUTIONS

THE TOOLS. THE TRUST.

There are things in life that people expect. Flip a switch, and the light goes on. Turn the faucet, and water comes out. When it has to be there, Snap-on Industrial is there, too.

We have a wealth of experience in energy and natural resources. All across the country. All around the world. Power plants to mining operations. From special tools and tool-ups to advanced tracking and asset management programs, special kits, work stations, tool rooms and turnkey mobile tool cribs for field installations, maintenance outages, and 24/7 operations. Tools you can always count on, all backed by the support team from Snap-on Industrial.

ANYTIME. ANY PLACE.

You've suddenly got a job on the other side of the world. You need tools, and you need them now. Maybe it's oil field maintenance, a construction job, or a disaster. Snap-on Industrial Mobile Tool Solutions are there for you.

CUSTOM TURNKEY SOLUTION.

We'll come up with the right mix of tools, put them in the right 20 or 40 foot mobile containers and get them to the job. The tools, the storage and control systems, cabinetry, shelving and all the electrical, right down to lights and air conditioning. A complete custom, mobile tool crib. When and where you need it.

THE TOOLS TO KEEP, WELL ... THE TOOLS.

Tool loss can be a huge expense at a remote work site. We'll create a totally controlled environment, managed by our superior Level 5™ Tool Control System. It's the total package from CAD tool control layouts and electronic keyless entry systems to sophisticated database tool tracking. With our Mobile Tool Solutions, it's under control. No one does more than Snap-on Industrial.

SOLUTIONS THAT FIT YOUR NEEDS.

We can set up a program any way you want. Lease, rent or purchase. All tailored to your needs, your mission, your financial structure.

MOBILE TOOL SOLUTIONS

RAISE YOUR PRODUCTIVITY. LOWER YOUR COSTS.

Having the right tools, ready when you need them. That's what Snap-on Industrial is all about. There isn't an application we haven't seen and solved. And our tool control systems insure that the tools will be there, in their proper place, when your people need them. That's what we call productivity. We pride ourselves on providing our customers with the most valued productivity solutions in the world. The right solution, a plan that fits your needs, tools that always fit your needs. That's the Snap-on Industrial difference.

PROVEN. ALL AROUND THE WORLD.

This isn't just an idea. It's a program with proven results. We've gone to the Caspian Sea for a major pipeline project with our container workshops. All up and running faster than promised.

We've been to the mountains in Chile with copper mining companies and contractors with everything from mobile cribs to asset management to safety training. And a loss prevention program at one customer's location that cut annual tool losses from 50% to less than 5%. Proven results and real savings in both time and money.

RENT, LEASE, PURCHASE.

20' or 40' Mobile Containers, customized to meet your needs. Snap-on Industrial Mobile Tool Solutions work. Because we always have someone there to make sure they work. A local Snap-on Industrial Solutioneer familiar with the region, the job, the mission. We're there to help deploy, train and service the program. Every step of the way.

At Snap-on Industrial, it's the only way. Our tools are there. Our people are there.
