LEVEL 5
Tool Control System™

T H E R E I S A D I F F E R E N C E™

GENERATION TWO

KEYLESS ENTRY

SECURITY

- Reads individually encoded badges or cards for access control.
- Only authorized employees can unlock the tool box.
- Re-locks at the push of a button.
- Flashing red LED when unlocked.
- Advance programmable alarm system is included.
- Programmable locking/unlocking with "Lockview."
- New Drawer Control allows only one drawer per bank to be opened at a time.

FLEXIBILITY

- Portable system rechargeable 6V DC.
- Signals operator when recharge is needed.
- Reads employee badges or cards.
- Key can be used to override the system.
- Electronic master key available.
- Keyless Entry can be retrofitted or installed in any KRL/KRS Series roll cabs and workstations.

TRACEABILITY & ACCOUNTABILITY

- Box entry by user is recorded and backed up.
- Report is easily generated and exported, listing users, times and dates of entry.
- System interfaces with Level 5 asset management software.

Three scanning modules are available: Magnetic strip, Proximity card (H.I.D format), and Bar code – providing you with flexibility and total access control. You decide which employees have access and which employees don't. With Snap-on keyless entry you know, at a glance, the who, what, where and when.

Improved Design includes:

- Data port
- 6v 1500mA power port
- Low battery light
- Unlocked drawer warning light
- 1 million cycle heavy-duty stainless steel multi-function button
- Card reader proximity version shown
