Snap-on®

Printed in the U.S.A.   Part # EAZ0042L4BI

EVERYTHING YOU NEED. NOTHING YOU DON'T. THREE SUPER-INTELLIGENT, SUPER-INTUITIVE WAYS.

APOLLO, TRITON AND ZEUS.
Driven by Fast-Track® Intelligent Diagnostics.

Snap-on®

START WORKING EVEN SMARTER. RIGHT AWAY.

Get the information you need—when and how you need it—the next time you need to make the right repair.

Only a system as smart as Fast-Track® Intelligent Diagnostics can filter a universe of vehicle-specific data, constantly updated through a convenient cloud-based platform, to help you make quick, confident repairs—and get your customers back on the road. No other company can match our data or our customer service, and no other company can make it all this easy to use.
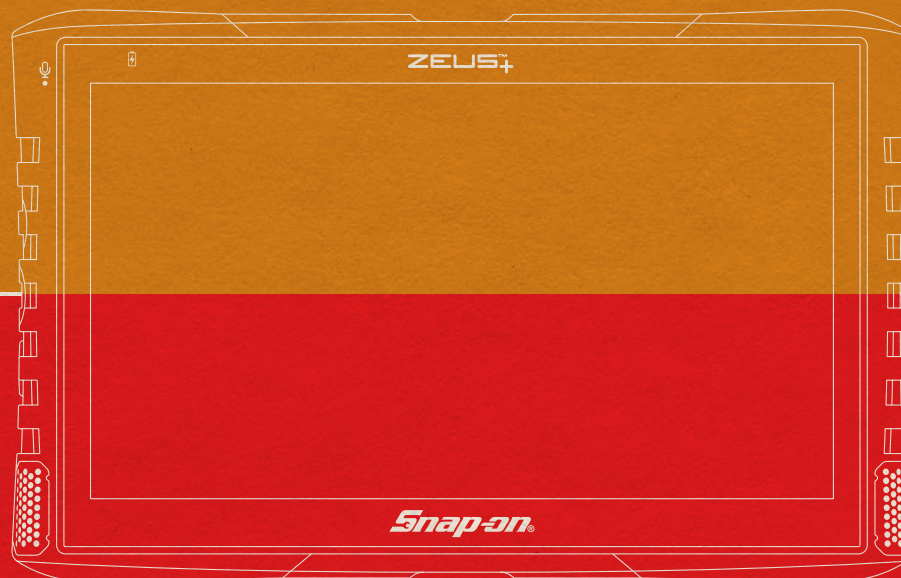

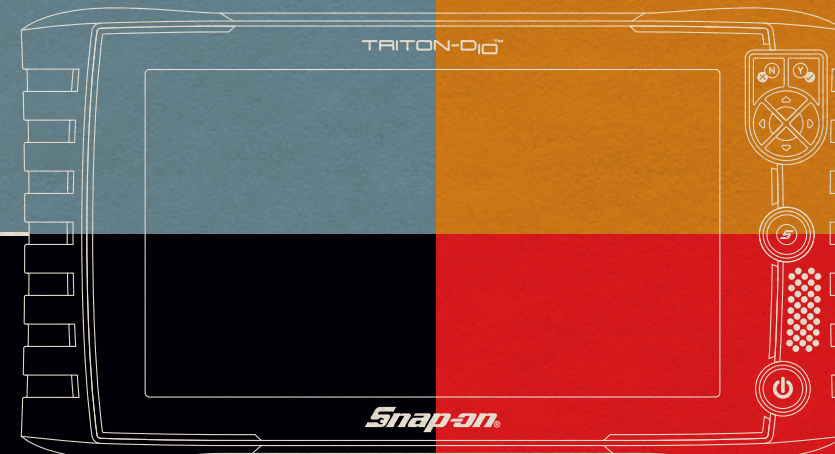

Simplify your diagnostics: Discover what Fast-Track Intelligent Diagnostics can do for you.

DIAGNOSTICS.SNAPON.COM/ID

A diagnostic purchase is no small investment. The tool you purchase needs to be the best tool you can get—one that offers the most comprehensive coverage and the best customer support in the industry. All of which is exactly why you choose Fast-Track Intelligent Diagnostics from Snap-on.

HARDWARE

The best tools are designed to make your job easier rather than making it tough to get through the day. Built to take on even your biggest challenges, every Fast-Track Intelligent Diagnostics platform is designed specifically for the automotive industry and built to withstand the rigors of the shop, featuring a streamlined design, rugged hand grips, a capacitive color touchscreen and 5 GHz wireless compatibility for more productivity than ever in the bay.

SOFTWARE

You can't waste a second when it comes to tracking down the information you need. Fast-Track Intelligent Diagnostics delivers instant identification for most 2008 and newer vehicles, one-touch code scan and clear, and OEM-level data—with a hotkey for instant screen snapshots and industry-leading graphing features that provide you with all the information you need, right when you need it.

EXPERIENCE-BASED SOFTWARE

Working intelligently means working faster, more intuitively, and more powerfully—without irrelevant information getting in your way. Fast-Track Intelligent Diagnostics brings more focus to your workflow, with SureTrack® for verified parts replacement records and Real Fixes, Smart Data for relevant vehicle and code-specific data, guided component tests for vehicle-specific procedures on millions of components, and access to prefiltered functional tests for verifying repairs.

UNMATCHED CUSTOMER SUPPORT

All the intelligence in the world means nothing if it isn't easy to use. Every Fast-Track Intelligent Diagnostics platform comes standard with industry-best Snap-on® Customer Care, plus 24/7 online training and support, industry-focused national online training, flexible financing, and exclusive access to the Snap-on® Cloud.

SUPER-FAST.
SUPER-SMART.
SUPER-EASY.

APOLLO

GUIDED REPAIRS

Ideal for the general repair technician who needs a tool for getting through everyday tasks that offers the advantages of code and vehicle-specific data to filter information and help find the right fix fast.

SUPER-CAPABLE.
SUPER-INTUITIVE.
SUPER-CERTAIN.

TRITON

TESTING & VERIFICATION

Ideal for the shop owner or general technician who needs scope functionality, verified testing and comparative data to help save time when troubleshooting and bring more certainty to every repair.

SUPER-POWERFUL.
SUPER-INTELLIGENT.
SUPER-COMPREHENSIVE.

ZEUS

INVESTIGATION & INFORMATION

Ideal for the shop owner, master tech or any other technician who needs the ultimate diagnostic tool to help make the right decision at every fork in the road, from diagnosis to repair and beyond.

EESC333EUR

THE SUPER-FAST, SUPER-SMART, SUPER-EASY SUPER TOOL.

The APOLLO-D9 filters a universe of data and guides you directly to the answers you need, saving time while helping you find the right fix—every time. For greater focus on every repair and greater efficiency for you and the shop. With features and advantages you'd otherwise expect only from a more advanced diagnostic platform.

# SIMPLIFY YOUR DIAGNOSTICS WITH THE APOLLO-D9

HARDWARE

- Sleek, sophisticated design developed specifically for the shop environment
- 9" capacitive color touchscreen display for improved readability from any angle—and superior visibility indoors or out
- Four-way thumb pad for quick navigation
- Fast bootup and one-touch code scan and clear, letting you move quickly from start to print
- 5 GHz band wireless router compatibility

SOFTWARE

- OEM-specific scanner coverage for over 49 Asian, domestic, and European makes and over 100 vehicle systems
- Instant vehicle identification for most 2008 and newer vehicles
- Advanced graphing features and OEM-level data
- Up to eight live data parameters displayed onscreen at a time
- Records all data, all the time for easy switching to view alternate PIDs
- One-click access to relevant vehicle- and code-specific technical service bulletins (TSBs)
- Comprehensive and detailed functional tests
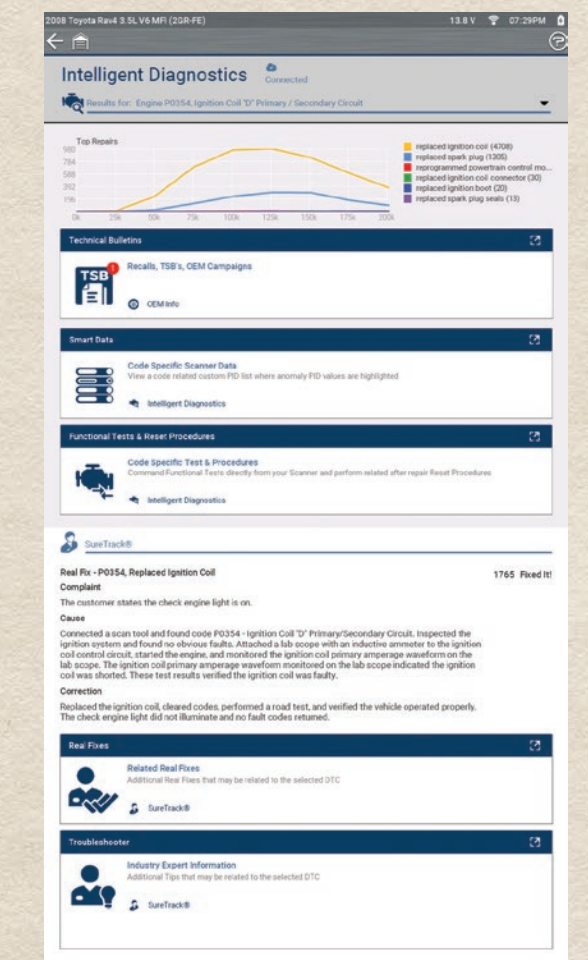

EXPERIENCED-BASED SOFTWARE

- Patented Fast-Track Intelligent Diagnostics workflow and filtered information for bringing focus to the specific vehicle and code you're working on
- Access to SureTrack, a patented resource for verified parts replacement records and Real Fixes harvested from millions of successful repairs
- Access to common procedures, specs and service interval resets
- Patented Smart Data, delivering relevant vehicle-and code-specific PIDs with known-good values

Smart Data shows you relevant PIDs for the specific vehicle and code, highlighting those out of expected range.

Technical Service Bulletins give you up-to-date, one-click access to relevant vehicle and code-specific OEM TSBS

Fast-Track Intelligent Diagnostics provides everything you need for that vehicle and that particular code on a single display.

EEMS344EUR

THE SUPER-CAPABLE, SUPER-INTUITIVE, SUPER-CERTAIN SCAN-AND-SCOPE TOOL.

The TRITON-D10 lets you dig deep into the systems of a vehicle and evaluate performance with comparative data, systematically eliminating the unnecessary to provide you with only the specific resources you need. Sophisticated, intuitive diagnostic testing and system verification, all from a single source—for more all-around certainty, even on complex repairs.

# BRING CERTAINTY TO YOUR DIAGNOSTICS WITH THE TRITON-D10

HARDWARE

- Streamlined styling, with a lightweight body and thin, rugged hand grips
- 10" capacitive color touchscreen display for improved readability from any angle, superior visibility indoors or out, easy scrolling, and user-friendly navigation
- Integrated two-channel lab scope for verifying component failure, with enhanced memory for capturing intermittent glitches
- Super-fast boot-up

SOFTWARE

- Sophisticated verification and testing functionality, including OEM-level data and advanced graphing features that record all data to enable switching between PIDs and focusing in on any data at any time
- Comprehensive and detailed functional tests
- OEM-specific scanner coverage for over 49 Asian, domestic, and European makes and over 100 vehicle systems
- Instant vehicle identification for most 2008 and newer vehicles
- Up to eight live data parameters displayed onscreen at a time
- Records all data, all the time for easy switching to view alternate PIDs
- One-click access to relevant vehicle- and code-specific technical service bulletins (TSBs)
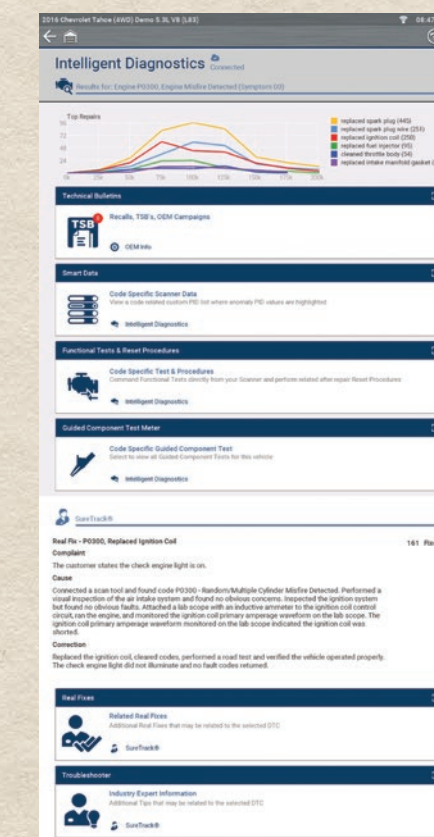

EXPERIENCED-BASED SOFTWARE

- Patented Fast-Track Intelligent Diagnostics workflow and filtered information for bringing focus to the specific vehicle and code you're working on
- Access to SureTrack, a patented resource for verified parts replacement records and Real Fixes harvested from millions of successful repairs
- Access to common procedures, specs and service interval resets
- Patented Smart Data, delivering relevant vehicle and code-specific PIDs— and highlighting those that are out of expected range
- Guided component tests that show you how to test, where to connect and what results to look for

Relevant technical service bulletins. You'll save a huge chunk of time by accessing OEM TSBs for that code and that vehicle—all right on the tool and reachable within one simple click. Which makes it the ideal place to start your diagnosis.

Guided component tests that walk you through the testing procedure and assist you with how to test, where to connect and what results to look for.

Fast-Track Intelligent Diagnostics provides everything you need for that vehicle and that particular code on a single display.

EEMS348EUR

THE SUPER-POWERFUL, SUPER-INTELLIGENT, SUPER-AT-EVERYTHING DIAGNOSTIC TOOL.

The ZEUS+ gives you everything you need to diagnose, repair and manage any issue. It's the most advanced information-driven scan and scope device in the industry, with onboard storage, processing and communications capabilities that bring next-level functionality—and next-level results—to your entire diagnostics workflow.

# MANAGE YOUR DIAGNOSTICS FROM START TO FINISH WITH ZEUS+

HARDWARE

- 12" capacitive color touchscreen display (1920x1080 resolution) for exceptional readability, superior visibility and user-friendly navigation

- Completely separate scope module for more mobility in the shop—with a strap included for easy cable storage

- An 8MP camera with spotlight and microphone for voice-to-text capability, videoconferencing, and recording video, voice and sound

- Friction-hinge stand that can be used as a stand, handle or hanger, with a long-lasting battery providing up to nine hours of run time
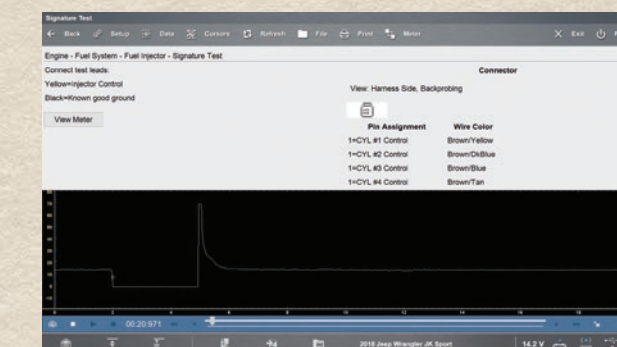

SOFTWARE

- Clear-view flag tracker, with graph-view format to speed up and simplify the diagnostic process

- 4-channel scope module with a large waveform buffer for capturing intermittent issues

- OEM diagnostic functions, tests and coverage previously found only in expensive factory tools

- Integrated diagnostic suite for fast, easy navigation—including Guided Component Tests, SureTrack expert information, TSBs, oil specs and resets, and optional ShopKey® Pro

- Built-in Wi-Fi,® Bluetooth® and browser to keep you connected to the vehicle and the internet

- Comprehensive data manager for storing thousands of vehicle records, customer data, vehicle ID and diagnostic results

- Pre- and post-scan capability for faster approvals, histories, repairs and payments

- Vehicle System Report showing all fault codes and readiness monitors in a customer-friendly format to help sell services and communicate with customers
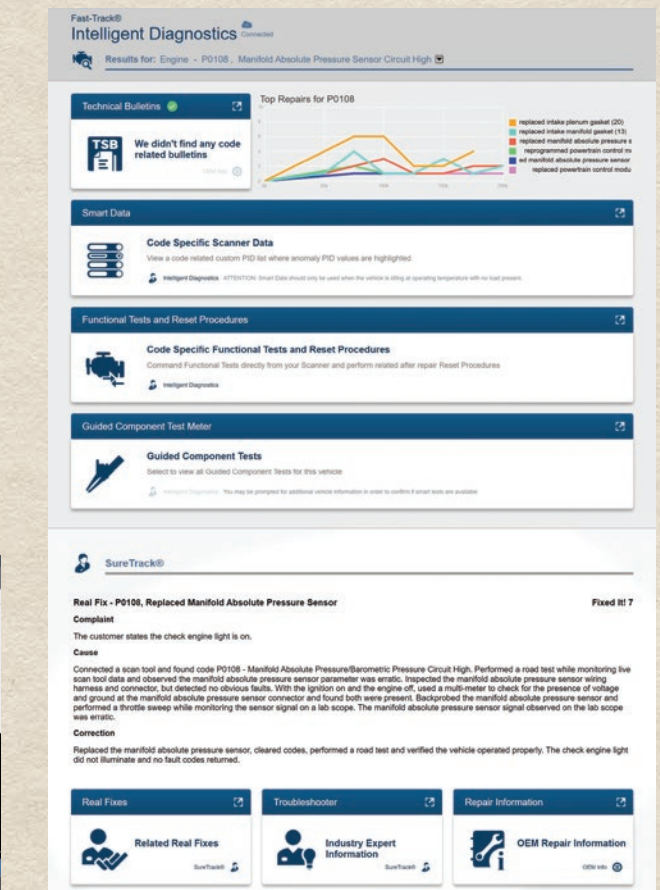

EXPERIENCED-BASED SOFTWARE

- Patented Fast-Track Intelligent Diagnostics workflow and filtered information for bringing focus to the specific vehicle and code you're working on

- Access to SureTrack, a patented resource for verified parts replacement records and Real Fixes harvested from millions of successful repairs

- Access to common procedures, specs and service interval resets

- Patented Smart Data, delivering relevant vehicle-and-code-specific PIDs— and highlighting those that are out of expected range

- Guided component tests that show you how to test, where to connect and what results to look for

Pre- and post-scan capability for faster approvals, histories, repairs and payments—with pre-scan, post-scan, ADAS calibration and customer health reports in a seamless workflow.

Guided component and functional tests give you clear step-by-step procedures and let you quickly verify component operation.

Fast-Track Intelligent Diagnostics provides everything you need for that vehicle and that particular code on a single display.

360 DEGREES OF INTELLIGENCE YOU CAN TRUST.

Software Subscription
Regularly scheduled software upgrades maximize your investment and guarantee that your diagnostic platform always provides the same comprehensive performance as it did on Day One. For more information, ask your Snap-on® Franchisee or other Sales Representative.

Training Solutions®
Learn your way around your diagnostic platform and how to get the most out of it every day with training videos, available online 24/7 at **diagnostics.snapon.com/trainingsolutions**—plus live online training sessions available every week.

The Snap-on Cloud
When up to date with the latest software and connected to Wi-Fi,™ your Intelligent Diagnostics platform can automatically upload vehicle system reports and screen captures to the Snap-on Cloud, letting you save, sort and share pre/post scan and ADAS calibration reports— and show your customers the value of the work you do.
