

VANTAGE® Legend

WEEKLY PAYMENT AS LOW AS:

- | High-speed 2-channel lab scope displays up to two waveforms in real time
- | Up to 6 million samples/sec makes it easy to catch intermittent faults
- | 3MHz bandwidth; Sweep rate as fast as 50 microseconds
- | Scale range 0-100mV to 0-400V
- | Digital/graphing high impedance meter with auto scaling; Sweep rate 1 second to 5 minutes
- | Pinpoint measurement of: DC volts, AC Volts, RMS, Ohms, Frequency, Pulse-width, Injection pulse-width, Duty cycle
- | Interface for optional pressure/vacuum transducers and precision amp probe
- | Detailed 800 x 480 high-resolution display for accurate results
