

SNAP-ON® DIESEL SCANNER DIAGNOSTICS CERTIFICATION

BUILDING TOOLS FOR LIFE

Built on the foundation of the most trusted brand in the industry, Snap-on provides the essential **TOOLS FOR LIFE** that shape the future of tomorrow's workforce — certification programs, industry-supported curriculum and hands-on training with Snap-on products.

Today's diesel and heavy duty vehicles require computerized diagnostics to properly identify problems. As the leader in aftermarket diesel vehicle diagnostics, Snap-on has developed certification training for students and technicians to undergo rigorous classroom training and advanced lab exercises.

The majority of technicians utilizing scanning equipment know only 20 to 30 percent of the tool's capabilities. When you participate in Snap-on certification, you will leave as a scanner power-user and have real world lab experience.

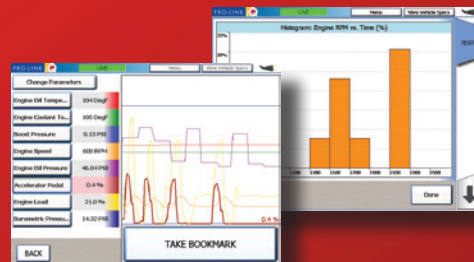

Receive an official NC3 certificate for proof of achievement providing third party stackable credentials that can offer enhanced employment potential and higher productivity on the job, in industries such as:

- Diesel Engine
- Fleet Maintenance
- Heavy Duty Equipment
- Construction
- Mass Transit

COURSE CONTENT INCLUDES:

- Understanding scanner controls and navigation
 - » Engine, transmission, ABS and more
 - » Menus and capabilities
 - » Configure settings
 - » Capture and manage saved data
- Using vehicle communication software
 - » Common user interface across OEM applications
 - » Global OBD II
 - » OEM data parameters
 - » Proprietary trouble codes
 - » Advanced functional tests
 - » Reprogramming
- Cause and effect
 - » Codes and data
- Vehicle ID specification
- Troubleshooting techniques
- PC connectivity via USB
- Create custom data lists
- Troubleshoot drive-ability, ABS, body control and other systems
- On-screen trouble code definitions
- Easy-to-use menus and message screens

ADDITIONAL SNAP-ON CERTIFICATIONS:

- Automotive Scanner Diagnostics
- Mechanical and Electronic Torque
- Multimeter
- Wheel Service and Alignment
- Asset Management
- Horticulture
- Building Performance (Fall 2013)
