Snap-on Industrial to demonstrate new product portfolio and productivity solutions at two day event in Bolton

See the Snap-on Industrial difference at Bolton Whites Hotel, Reebok Stadium, 2nd -3rd October

Kettering based, [Snap-on Industrial](#), the leading global innovator, manufacturer and marketer of tools will be demonstrating its commitment to industry with a two day event in Bolton. The event will showcase the company's productivity solutions and product portfolio with practical demonstration areas.

During the two day event entitled 'There is a Difference', Snap-on Industrial will demonstrate its unrivalled expertise in providing bespoke solutions across a diverse range of industry sectors, including aviation, energy and renewable, defence and construction, in addition to manufacturing, food production and rail.

The event also provides the opportunity to learn more about Snap-on Industrial's knowledge of essential industrial issues such as manufacturing performance, safety management, audit accountability and FOD and FME prevention. These are all recognised in Snap-on Industrial's specific Level 5 programmes which has received critical acclaim for its operational strength and value.

Commenting on the event, Eric Bright, Product Manager at Snap-on Industrial said, "At Snap-on we have made it our job to constantly add to our legacy – more tools, more quality-control programmes, more innovations. The event will showcase our renowned range of ergonomically designed, high quality, hand and power tools. This is an excellent opportunity for people to meet a member of our experienced team to discuss any tooling requirements they have."

Further information will be available on the following products:

- **C-Tech Wrench:** These wrenches are capable of holding 1500 readings which can be downloaded for audit purposes and quality control. The product also provides 40 pre-set password protected torque settings for secure and reliable setting of torque in sequence.
- **BK6500 Digital Inspection Scope and BK8000 Wireless Digital Inspection Scope:** Both visual inspection devices provide superior imagery under all light conditions and allow the user to record both still and video images alongside sound.
- **Torque Tools:** Snap-on has the world's largest selection of Industrial Torque Tools, giving more ways to turn more fasteners than anyone else, and more options to correctly tighten.
- **Tool and tool storage:** high quality bespoke tool kits, storage solutions.

- **Level 5 Tool control:** Superior Tool Control. Level 5 is the most comprehensive and cost-effective tool control system of its kind, ready to be set up according to users specific needs. Bringing control over the most expensive assets, aiding workflow and efficiency.
- **Asset Management:** TC Max software system is a simple, intuitive, interactive screen that tracks calibration schedules and maintenance, manages inventory and ordering, transfers assets from one employee to another and generates as many reports as needed - all with audio prompts and clear visual information.

Further information will also be available on the following programmes:

- **Excellence In Education:** The programme supports vocational training establishments and students across the UK with the best tools and equipment, as well as the expertise to ensure their safe and effective use.
- **Tools@ Height:** The tethered tools system helps increase safety and efficiency by preventing tools from being dropped when working at any height. Tethering prevents injuries and fatalities, damage to machinery, equipment and lost production time.

Eric continued, "This is an opportunity not only for people to come and talk to our product and programme specialists but also provides the chance to learn more about the product performance and latest innovations in our range. There will also be practical demonstration areas for torque and visual inspection."

Snap-on Industrial products are available from www.snapon.com/industrialuk.

Notes to Editor:

About Snap-on Industrial

Since 1920 Snap-on Industrial has been a world leading tooling solutions specialist with unrivalled expertise in providing bespoke solutions across a diverse range of industry sectors, which include natural resources, defence, aviation, construction, as well as manufacturing, rail and food production. Snap-on Industrial provides companies with strategic advantages in addressing the challenge of increasing profitability, through reduced downtime, increased productivity and cost control.

Snap-on Industrial offers a range of programmes that benefit the professional user. The company is a leader in tool control systems for the prevention of Foreign Object Damage (FOD) and Foreign Material Exclusion (FME), with Level 5 ATC fully Automated Tool Control and Networkable Asset Management (NTC). In addition, Snap-on Industrial's TC Max provides a comprehensive audit trail and management control structure to asset management, providing a broader and deeper knowledge about an organisation's inventory usage and the operatives using them.

Additional programmes include Excellence in Education supporting apprenticeships and workplace training, Tools @ Height safety system which enables the safe tethering of virtually any hand or power tool from the company's portfolio without compromising functional or ergonomic performance.
