ZEUS

EXPAND

Maximize your tool's potential by adding even more capabilities, like cables, adapter kits and more.

PERSONALIZE

Configure your diagnostic tool to fit your work environment and style, with accessories like docking stations, foam organizers and more.

PROTECT

Add security and peace of mind to your investment with accessories like cases, screen protectors and extended warranty.

Snap-on

EXPAND

Broadening your capabilities allows you to service more of the cars that pull into your bay. That's why we offer so many smart add-ons.

OTHER ACCESSORIES

Be ready for anything, any time with spare batteries, replacement cables and more.

SCOPE ACCESSORIES

Take advantage of the ignition scope test capability in your tool with these coil-on-plug and coil-in-cap pickup adapters.

SCAN ACCESSORIES

Expand your reach with extended data cables, and expand your coverage with special adapters for European and OBD-I applications.

EXPAND | OTHER ACCESSORIES

Broadening your capabilities allows you to service more of the cars that pull into your bay. That's why we offer so many smart add-ons.

SCANNER DEMO PROP

Demo prop simulates a 2010 Chrysler® Town & Country® minivan. Use with scan tool to demonstrate fault code reading, fault code clearing, live data, functional tests and bi-directional controls. Use as a training simulator, or to demonstrate scan tool capabilities. Simulates Engine Control Unit and Central Gateway (Body Control) System. Override controls to simulate faults in engine coolant temperature, accelerator position and ambient temperature. Supports SureTrack,® Auto-ID, One-Touch Code Scan and Clear functions. Requires power from standard Snap-on® scan tool 110v AC power adapter (12-19v DC).
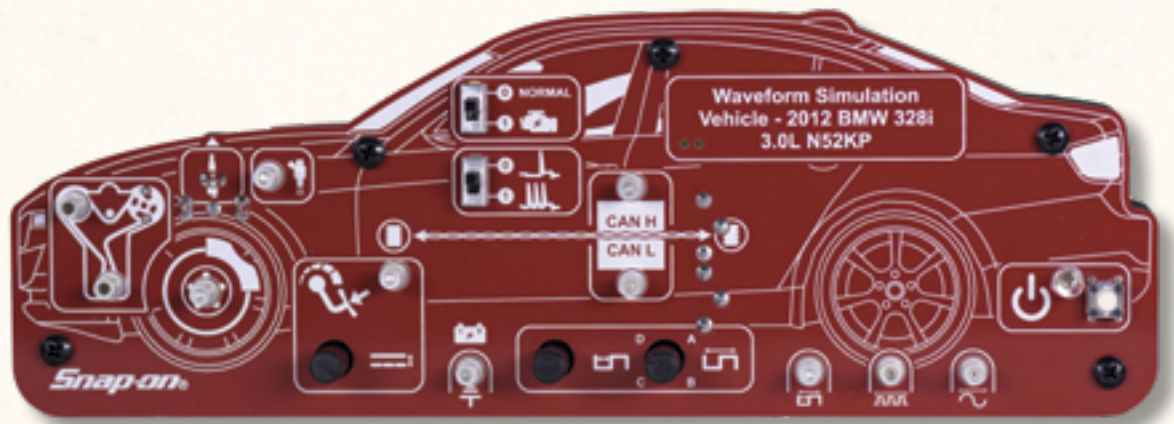

EESC306SC

SCOPE DEMO PROP

Demo prop simulates vehicle-specific sensor signals and waveforms from a 2012 BMW® 328i 3.0L, including crankshaft sensor, camshaft sensor, secondary ignition, CAN high and low, fuel injector, wheel speed sensor and accelerator position sensor. Use as a training simulator and to demostrate scope and meter capabilities. Generates common automotive waveforms like sine wave, variable pulse-width, duty cycle and variable frequency. Compatible with Fast-Track® Guided Component Tests. Automatic and manual shutoff. Powered by 9v alkaline battery (included).

PRESSURE TRANSDUCER CABLE

Replacement standard cable for EEPV302AL, EEPV302AT and EEPV302AH pressure transducers. Connects pressure transducer to diagnostic tool.

EAX0024B10A

ZEUS

Snap-on®

PRESSURE TRANSDUCER 6 FT. EXTENSION CABLE

6 ft. long cable extension for EEPV302L, EEPV302T and EEPV302H pressure transducers. Facilitates use from all around vehicle. Great for road testing.

EAX0024B30A

ZEUS

Snap-on

SPLIT-LEAD ADAPTER FOR PRESSURE TRANSDUCERS AND RPM ADAPTER

Split-lead adapter provides connection for up to two pressure transducers at once. Take two pressure measurements, or pressure and RPM simultaneously, with Snap-on® scope meters. Required for use with optional EEPV302 series pressure transducers.

EEMS301A05

ZEUS

Snap-on®

PRESSURE TRANSDUCER KIT

Pressure and vacuum transducer provides signal for real-time waveform displays of pressure/vacuum readings. Typical applications include fuel system, transmission, power steering, ABS, hydraulics, vacuum, A/C and more.

NOTE: Requires Split Lead Adapter (EEMS301A05).

0-100 PSI: EEPV302AL
0-500 PSI: EEPV302AT
0-5000 PSI: EEPV302AH

ZEUS

Snap-on

EXTENDED-LENGTH LEAD SET

Extended-length 10 ft. shielded test leads block out radio frequency interference (RFI). Red and black leads are heat- and oil-resistant. Extend the reach of a scope/meter for testing hard-to-reach components.

EETA108B

ZEUS

Snap-on®

PRECISION LOW-AMP PROBE

Precision low-amp current probe for nonintrusive testing. Uses Hall-effect technology. Take precision current readings and perform testing of parasitic loads, injectors, fuel pumps, relays, electric motors and more. Spring clamp operation can test wires up to ½" diameter. Current range, 20A/60A AC Peak or DC. Resolution, +/- 1 milliamp. CAT I rated to 150 volts. Internally powered by 9v battery.

EETA308D

ZEUS

Snap-on

SECONDARY COIL ADAPTER LEAD

Connects to the optional secondary ignition adapters (COP and CIC) to display secondary waveforms on coil-on-plug and coil-in-cap systems.

EETA309A05A

ZEUS

Snap-on®

SIA 2000 MULTI-IGNITION ADAPTER

Sun® distributorless ignition kit for waste spark and direct ignition systems. Displays and labels cylinder firings in a series across one channel for direct ignition and two channels for waste spark systems. Direct ignition systems also require optional ignition coil adapters.

EETA309A15

ZEUS

Snap-on®

INDUCTIVE RPM PICKUP

Signal pickup connects to diagnostic tool DB9 9-pin (AUX) connector. Use to trigger a waveform or view RPM. For multi-cylinder secondary ignition testing. Includes inductive RPM pickup/trigger, coil adapter lead and secondary kV clip-on probe. Ideal for distributor systems, and for COP/CIC systems using optional COP/CIC adapters.

EETM303A05A

ZEUS

Snap-on.

SECONDARY IGNITION CLIP-ON WIRE ADAPTER

Connects the optional Secondary Coil Adapter Lead to vehicle secondary wire. Use to view an ignition pattern on Snap-on® scope meter.

SCOPE DEMO PROP

Demo prop simulates vehicle-specific sensor signals and waveforms from a 2012 BMW® 328i 3.0L, including crankshaft sensor, camshaft sensor, secondary ignition, CAN high and low, fuel injector, wheel speed sensor and accelerator position sensor. Use as a training simulator and to demostrate scope and meter capabilities. Generates common automotive waveforms like sine wave, variable pulse-width, duty cycle and variable frequency. Compatible with Fast-Track® Guided Component Tests. Automatic and manual shutoff. Powered by 9v alkaline battery (included).

PRECISION LOW-AMP PROBE

Precision low-amp current probe for nonintrusive testing. Uses Hall-effect technology. Take precision current readings and perform testing of parasitic loads, injectors, fuel pumps, relays, electric motors and more. Spring clamp operation can test wires up to ½" diameter. Current range, 20A/60A AC Peak or DC. Resolution, +/- 1 milliamp. CAT I rated to 150 volts. Internally powered by 9v battery.

EETA308D

VANTAGE® ULTRA

Snap-on®

PRESSURE TRANSDUCER 6 FT. EXTENSION CABLE

6 ft. long cable extension for EEPV302L, EEPV302T and EEPV302H pressure transducers. Facilitates use from all around vehicle. Great for road testing.

EAX0024B30A

VANTAGE® ULTRA

Snap-on®

PRESSURE TRANSDUCER ADAPTER

Adapter connects EEPV302AL, EEPV302AT and EEPV302AH pressure transducers to a standard multimeter jack. Use up to two transducers simultaneously. Record, plot and monitor pressure in real time. Typical applications include ABS, PS, transmissions, hydraulics and fuel system tests. Requires 9v battery, included.

EEMS324PSA

PRESSURE TRANSDUCER CABLE

Replacement standard cable for EEPV302AL, EEPV302AT and EEPV302AH pressure transducers. Connects pressure transducer to diagnostic tool.

ETHOS PRO®

OBD-I DATA CABLE

Replacement for standard OBD-I data cable.
Connects scan tool to OBD-I scan tool adapters.

EAX0068L01A

ETHOS PRO

Snap-on.

OBD-II DATA CABLE

Replacement standard data cable and connector for all OBD-II vehicle applications.

EAX0068L00C

ETHOS PRO

Snap-on®

OBD-II LONG DATA CABLE WITH LIGHT

Extended length, lighted data cable and adapter for all OBD-II vehicle applications. 9 ft. length provides extra reach for working around and under vehicle. Convenient length for road testing with assistant in passenger seat. Built-in LED light makes it easy to find the vehicle data connector. No batteries needed — powers from scan tool.

EAX0068L26A

ETHOS PRO

Snap-on.

OBD-II TO OBD-I DATA CABLE CONVERTER

Data cable convertor. Use to connect any standard Snap-on® OBD-II data cable to OBD-I adapters.

EAA0355L93A

POWER ADAPTER, HD26 TO DC PLUG

Adapter converts data cable connector on tool to standard 110v AC power adapter to power tool when not connected to vehicle. Use while upgrading software in tool.

EAC0069B26A

ETHOS PRO

USB CABLE

Replacement for standard USB cable. Connect diagnostic tool to PC for interface with ShopStream Connect™ or uploading diagnostic data to a PC.

EAX0066L05B

ETHOS PRO

Snap-on.

SMART VIA FOR HARLEY-DAVIDSON®

Vehicle interface connects to Harley-Davidson motorcycles and activates software coverage. Comprehensive coverage for all major systems on 2000 – newer motorcycles that include: read and clear OEM-specific fault codes, perform One-Touch Code Scan for all available systems and powerful functional tests. Compatible with any Snap-on® diagnostic platform (except SOLUS PRO®) with Upgrade 17.2 or newer.

EAK0347L01A

ETHOS PRO®

Snap-on®

SCANNER DEMO PROP

Demo prop simulates a 2010 Chrysler® Town & Country® minivan. Use with scan tool to demonstrate fault code reading, fault code clearing, live data, functional tests and bi-directional controls. Use as a training simulator, or to demonstrate scan tool capabilities. Simulates Engine Control Unit and Central Gateway (Body Control) System. Override controls to simulate faults in engine coolant temperature, accelerator position and ambient temperature. Supports SureTrack, Auto-ID, One-Touch Code Scan and Clear functions. Requires power from standard Snap-on® scan tool 110v AC power adapter (12-19v DC).
