

QUALITY GUARANTEE

Keeping pace with the dynamic auto industry, we're committed to constantly enhancing and improving our diagnostic equipment to ensure that every investment you make with us is the most sophisticated, technologically advanced solution available on the market.

CUSTOMER CARE

When you choose a Snap-on diagnostic tool, you gain a long-term partner. Experienced Snap-on Customer Care Representatives are available to support you on our Customer Care Hotline at 800-424-7226 or email diagnostics_support@snapon.com. Se habla Español.

To learn more, talk to your Snap-on Franchisee or other Sales Representative or visit diagnostics.snapon.com/ETHOSedge

Snap-on[®]

**EMBRACE YOUR FUTURE.
INTRODUCING THE NEW ETHOS[®] EDGE.**

Snap-on[®]

BORN READY

It's time to continue your journey with the right diagnostic tool, right now. Powerfully built with new features and easy to use right out of the box, having the new ETHOS Edge in your corner means you're ready to take on any vehicle in the bay, all day and every day. This work is your calling. ETHOS Edge can help you answer.

BORN POWERFUL

The new ETHOS Edge delivers the scan tool functions you expect from Snap-on®: codes, data, tests, relearns and adaptations. With full coverage for nearly 50 domestic and foreign makes dating back to 1983, there's no more sweating the challenge in front of you. Auto vehicle IDs the VIN for you, saving you time and getting you off the line faster. And you can take on every day confidently with OEM-specific coverage for 100 systems, including TPMS, hybrid power, collision avoidance and more.

Expedite maintenance tasks with special functions, including brake bleeding, steering angle reset and service light reset to keep you rolling with ease. Figure it out faster with One-Touch Code Scan and Clear for easy scanning of all available vehicle systems. Avoid wasting time by saving and recalling previous vehicles and diagnostic results.

BORN TO MOVE

The new ETHOS Edge is more than just a gateway to the next step in your career. It's an introduction to the Snap-on family. Designed for consistent navigation with other Snap-on diagnostic tools, it makes transitioning to another platform easy and hassle-free. It even gets you up to speed quickly, thanks to a large touchscreen and simple navigation.

Waiting around isn't on your schedule. So the ETHOS Edge powers on automatically when connected to a vehicle to help you start diagnosing issues right away. And you can upgrade your software whenever you're ready using ShopStream Connect.™

BORN TO WORK

You're ready to be the best tech you can be, so you need a full-function scan tool that's ready whenever you are. That's why the Steady-Charge system charges the battery from the vehicle, letting you knock out downtime and the next job in one fell swoop. And because you work differently from other techs, ETHOS Edge even lets you customize your work style with a 4-way keypad and touchscreen functionality.

See what's ahead with a large, full-color 5.6" display screen and new icon menu display interface. The slim housing is comfortable and looks awesome, while lightning-fast boot-up and performance help you get every job done faster.

BORN FOR TODAY— AND FOR THE ROAD AHEAD

PERFORMANCE

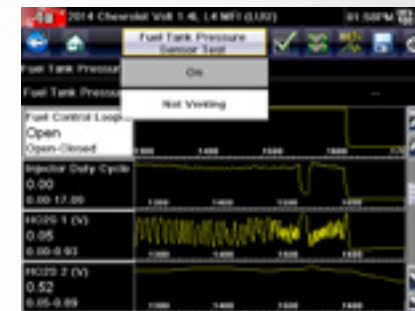

- Full-function diagnostics including codes, live data graphing, functional tests, service light resets, relearns and adaptations
- Full OEM-specific coverage for 49 domestic, Asian and European makes as far back as 1983
- Coverage for 100 systems including the latest technology: TPMS, hybrid power, collision avoidance and steering angle sensor
- Expedite maintenance tasks with special functions including brake bleeding, steering angle reset, battery relearn and service light reset
- Reads all available vehicle systems with One-Touch Code Scan and Clear
- Steady-Charge system charges the lithium-ion battery from the vehicle, eliminating changing or charging batteries
- Operate with touchscreen functionality or the four-way keypad
- Consistent navigation for all makes

SPEED

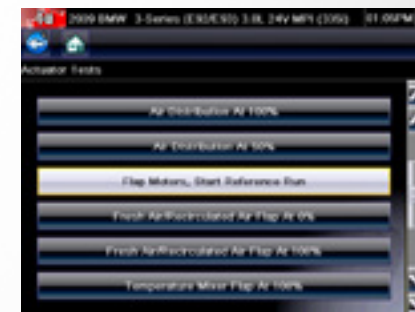

- Super fast boot-up — ready to work in five seconds
- Save and recall vehicle ID and diagnostic results
- Automatic power-on when connected to vehicle
- Auto vehicle ID reads the VIN so you don't have to
- Upgrade software online any time with ShopStream Connect™

Make quick work of maintenance jobs with service light resets

View live data while running powerful functional tests to see the root cause of vehicle faults

Includes powerful bi-directional controls and actuator tests to verify diagnosis and repairs
