

SOLUS Ultra™

WHO SAYS COMPLEX DIAGNOSTICS NEED TO BE COMPLEX?

EXCLUSIVE NEW FEATURES

- 7" screen, 65% larger than SOLUS PRO™
- Fast, icon-based navigation with one-click shortcuts to major functions
- One keyless adapter for all OBD-II vehicles
- Steady-charge battery charges directly from vehicle
- Ultra-fast 10-second boot up
- Cause & effect diagnostics – combines bi-directional controls with live data
- 4GB memory card
- Use keypad or touchscreen for fast navigation
- Effortless road tests with record, playback and PID trigger features – plus custom data lists, snapshots and screen captures

SNAP-ON® ADVANTAGES

- OEM-specific coverage without the expense of complex factory tools
- Detailed code definitions, live data, relearns, adaptations and functional tests
- Fast-Track® Troubleshooter with over a million vehicle-specific tips and tests
- Graph four live data points at once and record all available live data points
- Covers the latest vehicle systems like TPMS, Hybrid power, steering calibration, clean diesels and more
- Programmable hotkey for instant access to frequently used functions
- USB port for PC connectivity; save, print and share using Shopstream-Connect™ software
