IT'S LIGHTER ▶

IT'S FASTER

IT'S SMARTER

IT'S MORE FLEXIBLE

It's here. The ultimate way to manage your repair jobs and your business, all in one lighter, smarter wireless tool. We shaved nearly 3 lbs. off the new display tablet and made it thinner, so you can use it anywhere around the shop with ease. And the big screen makes it easier to view schematics and wiring diagrams. Plus, an all new removable scope/meter adds even more portability. As you can see, the one thing VERUS PRO isn't light on is exceptional features.

IT'S SMARTER

IT'S MORE FLEXIBLE

The most powerful tool we've ever offered. The diagnostic suite loads in half the time previously required, getting you to solutions quicker. Its one-touch icon shortcuts save you more time by allowing you to jump between the scanner, scope and other functions instantly. It also shows you EXACTLY the systems and tests for the vehicle you select. Which is why so many techs are asking how fast they can get their hands on one.

With a new, expanded software suite, VERUS PRO gives you access to scan, scope, data manager, waveform library, online technical forum, guided tests and verified repair tips in one integrated suite. As well as the optional ShopKey® Repair Information System. And with built-in Wi-Fi and Internet browser, you can access technical forums, parts suppliers, OEMs, your repair information system and other web resources. Another smart feature – the exclusive Fast-Track® Troubleshooter and online community puts you in touch with the latest tips and expertise from technicians around the country.

The most comprehensive tool we've ever developed, VERUS PRO helps you manage your workload and your business from start to finish. Its huge internal hard drive lets you store your vehicle records, take and save photos from the internal camera and add your choice of applications to enhance your business. It also gives you complete freedom of movement around the bay and beyond, thanks to its wireless, keyless scanning and hot-dockable scope. And the cause and effect diagnostics with true Windows® multitasking provides unsurpassed insight. Which not only makes you more flexible. It makes you more profitable.

► FEATURES

DISPLAY TABLET

- Thin-profile tablet with 10" high-resolution 1024 x 600 widescreen for precise results
- Fast touch screen access to all major functions; Virtual on-screen keyboard; Built-in camera; Programmable shortcut key
- Bluetooth wireless and Wi-Fi to access your favorite web resources
- High-energy lithium-ion battery pack for hours of continuous operation
- USB, audio and auxiliary ports make it easy to connect accessories
- Internal hard drive to save data and install your own applications

SOFTWARE

- Exclusive ShopStream™ integrated diagnostic suite. ID the vehicle once for all major functions: scanner, scope, online forum, vehicle records, and the optional ShopKey Repair Information System
- Genuine Windows® multi-tasking to view multiple applications side-by-side
- Configure display options, set triggers, record and playback results with the touch of your finger
- Data Manager saves vehicle records, technician notes, scanner and scope data

SCANNER MODULE

- A single keyless adapter for OBD-II vehicle applications
- Connects wirelessly to the display tablet with Bluetooth® for remote operation
- OEM-specific coverage for over 40 makes. Coverage for 1980-newer vehicles (European optional)
- Codes, live data, functional tests, relearns and adaptations for dozens of vehicle systems
- Exclusive Fast-Track Troubleshooter with millions of validated code tips, symptom tips and timesavers

SCOPE MODULE

- Hot-dockable scope module with USB extension cord
- High-speed 4-channel lab/ignition scope and digital/graphing meter
- 6 megasamples/second sample rate and glitch capture detects faults other scopes miss
- Scale range: 0 - 100mV to 0 - 400V, 50kV secondary ignition
- Sweep rate: 50 microseconds to 20 seconds (5 min in GMM mode)
- Exclusive Fast-Track guided component tests for 40 domestic, Asian and European makes
- VDC, VAC, ohms, frequency, duty cycle, pulse width, diode test and more

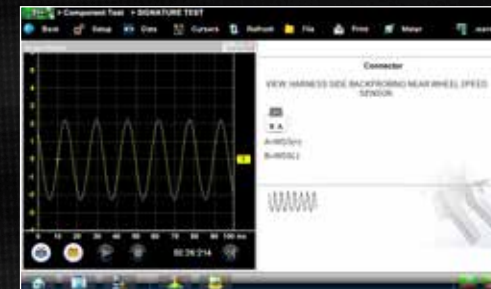

Exclusive software suite provides one-touch shortcuts to all diagnostic functions.

Hotlink directly from diagnostic functions to repair procedures with the optional ShopKey Repair Information System.

Touch any live data parameter to display in graph, text or full screen mode. View up to sixteen data parameters at once for true cause and effect diagnostics.

Exclusive Fast-Track Component Test Meter shows guided component test procedures, live scope readings and known good waveforms side-by-side.
