Snap-on's New Software Bundle 10.4 is all About the Answers

LINCOLNSHIRE, IL, Oct. 6, 2010 – Regular software upgrades make your tool like new, keeping repairs in your shop and reducing diagnostic time. Snap-on's latest upgrade, Software Bundle 10.4, is packed with over 56,000 new and enhanced codes, data, tests and tips, delivering the most coverage available beyond any other upgrade before. It offers new vehicle coverage for every model year from 1993 to 2010, including access to over 11,500 new vehicle systems, 10,000 new data parameters, more than 7,700 new trouble codes and 800+ new functional tests and relearns.

"No matter which Snap-on diagnostic tool you own, the new Software Bundle 10.4 provides the answers right at your finger tips," said Bill Bruno, vice president of sales and marketing for Snap-on Diagnostics. "Whether the repair is driveability, undercar, transmission, diesel, body control or just about any repair you can think of, Snap-on Software Bundle 10.4 offers fast answers for successful diagnosis and repair. You'll be able to move through your repairs more quickly, diagnose more vehicles more accurately, and create satisfied, happy customers who will return to your shop again and again."

Software Bundle 10.4 delivers fast answers to tough questions with previously exclusive coverage never seen before outside of a factory tool, including:

- GM symptom codes to pinpoint faults for ABS, airbag and hybrid
- Ford High Output Secondary Ignition Tests to isolate ignition problems quickly
- Ford medium-duty diesel F250 - F550 6.0L fuel injection control module and clear injector & HP adapted table test for 6.4L engines reduce the time required to verify repairs
- Mazda ABS Pressure Solenoids Functional Test results in confidence in the repair by taking the guesswork out of the diagnosis

With Bundle 10.4, Snap-on introduces a new diagnostic software suite for VERUS®. Now VERUS owners get to where they need to be up to 50 percent faster with an easy-to-use, icon-based interface offering simplified organization, a roomier display and larger buttons that result in quicker navigation with fewer clicks.

Additional highlights of the Snap-on Software Bundle 10.4 upgrade include:

- New 2010 model year coverage for GM, Nissan, Infiniti, Toyota, Lexus, Scion and Subaru
- Additional coverage for over 30 other makes
- The introduction of new critical systems coverage for 2000 to 2009 Land Rover with Snap-on's European software (optional), which also includes significantly enhanced coverage for Volkswagen, Audi, BMW, Mini and Mercedes-Benz.
- Body control for GM BCM and airbag assignment, Ford door and seat modules, Honda, Acura power window and Hyundai immobilizer
- Honda and Acura tire pressure monitoring systems (TPMS) codes and data
- Ford HVAC bi-directional tests
- Additional diesel coverage for 6.7L Dodge Cummins 2500 & 3500
- ABS functional tests and brake bleed service for GM, Ford, Mazda, Toyota, Lexus and Scion
- Chrysler, Mitsubishi, Nissan and Infiniti transmission coverage

- Enhanced alignment coverage for Ford, GM, Nissan, Infiniti, Toyota, Lexus, Scion, Honda, Acura, Mazda and Subaru

Software Bundle 10.4 offers exclusive Fast-Track[®] Troubleshooter coverage back to 1993 with 24,000 new and enhanced tips and timesavers, including:

- Code tips, symptom tips, tests and procedures, and tech assistance for Chrysler TPMS), Toyota, Lexus, Scion ABS and Nissan, Infiniti and Mitsubishi transmission.
- Additional new tips for Chrysler, Dodge, Ford, GM, Honda, Acura, Hyundai, Kia and Subaru
