## Smart Car Coverage Now Available in Snap-on Optional European Software

**LINCOLNSHIRE, IL, Nov. 15, 2011** – With the recent introduction of Software Bundle 11.4, Snap-on® has added new 2005 - 2010 Smart Car engine, transmission, antilock brake, instrument panel, airbag and body module to its optional European coverage.

In addition to new Smart Car coverage, Bundle 11.4 optional European software also includes increased coverage for Audi, BMW, Land Rover, Mercedes-Benz, Mini, Volkswagen and Volvo. Some highlights to the Software Bundle 11.4 optional European coverage additions include, but is not limited to:

- BMW Suspension Testing
- BMW Set Active Steering Module
- Mercedes-Benz EVAP Monitor Fuel Tank Leak Test
- Mercedes-Benz Steering Angle Sensor Calibration
- Volvo Parking Brake Module
- Volkswagen/Audi Steering Angle Sensor Angle Calibration
- Volkswagen/Audi Broadcast Clear All Codes
- Volkswagen/Audi Suspension Level Control Calibration
- Land Rover TPMS
- Land Rover ABS Brake Bleed

“European vehicles come with a different set of unknowns for professional technicians, but with the optional European coverage available for Software Bundle 11.4, technicians will have the confidence to take on jobs from general repair, driveability and service, to body control and suspension issues,” said Bill Bruno, vice president of sales and marketing for Snap-on Diagnostics.

“With having the European package, people are often referred to us by other shops that are unable to scan a customer’s vehicle, thus turning into new business for us,” said Sandy McLaughlin, Fixed Right Auto Repair, Adrian, Mich. “We are able to service vehicles in the European market at a fraction of the cost that a European dealer would.”

Software Bundle 11.4 includes new features and coverage, plus all of the features and coverage from the previous upgrades. Get over 92,300 new and enhanced codes, tests, tips and data, plus access to over 44,445 new systems for model years 1996 to 2011, including enhanced 2011 domestic and Asian coverage for General Motors (GM), Mazda, Infiniti, Lexus, Nissan, Scion, Subaru and Toyota. In addition, Software Bundle 11.4 offers over 5,700 component test meter (CTM) tips.

Optional European coverage is not included in the Software Bundle 11.4 purchase, but is available for an additional cost. To learn more about Software Bundle 11.4, visit <http://diagnostics.snapon.com> or talk to a Snap-on representative.
