## **Snap-on Launches VERUS™ Accessories Program** *Technicians Can Customize their Diagnostic Platform to Fit their Own Needs*

**LINCOLNSHIRE, IL, May 27, 2009** – Snap-on has launched a VERUS™ accessories program to include the newest accessories to help professional technicians protect and maintain their diagnostic tool, as well as options to personalize, customize, enhance and upgrade their diagnostic capabilities to fit their shops' specific needs.

Several optional software packages are also available to expand the coverage of the tool, including a European vehicle software kit and a repair information system, so technicians can choose the coverage that is right for them.

"I would like our customers to think of the VERUS diagnostic platform as a personal platform that they can equip it to suit their personal style and individual job needs," said Mark Schaefer, director of marketing, Snap-on Diagnostics. "Just like when you buy a new car – you can pick the platform and then choose your equipment, options and accessories."

Accessory options include:

- OBDI Vehicle Adapter Kit for pre-1996
- European Vehicle Software & Adapter Kit
- Ignition Scope Lead Set
- Docking Station with USB hub
- Smart Charger for VERUS Diagnostic Platform
- Pass Thru Pro J2534 Flash Reprogramming Device
- Leather Travel Case
- Screen Protectors
- Silicone Rubber Skins-black/blue/red
- FGA Five Gas Analyzer
- Adjustable Handgrip
- Chrome Metal Stylus – 3 pack

VERUS is a powerful evolution in handheld diagnostics and information. VERUS gives technicians everything they need to manage the vehicle, the diagnosis and the repair, in one rugged unit. It provides the answers that technicians need to do the repair right, the first time.

With VERUS, technicians can access web resources of their choice through the built-in Internet browser and WiFi. They can access OEM-specific codes, data and functional tests for 40 vehicle makes. VERUS offers over a million Troubleshooter time-saver tips based on real-world experience and more than two million component test procedures. Plus, it offers hotlinks to the complete Fast-Track® Reference Database, including TSBs, wiring diagrams, tests procedures and more.
