Snap-on Tool of the Month: MG725

KENOSHA, Wis. – December 29, 2010 – Power and more power. That is what you get with Snap-on's MG725 ½-inch impact wrench. The MG725 is also durable and dependable, allowing you to get more jobs done in the course of the day.

"The Snap-on MG725 ½-inch impact wrench provides a ton of torque for those stubborn fasteners and, at the same time, its lightweight design is easy-to-use and less stressful on your hand," said Jim Martin, product manager for Snap-on. "The MG725 is great for working in tight, hard-to-reach areas and the unique anvil stop feature will not throw fasteners or sockets when the trigger is released."

The features and benefits of the MG725 include:

- 810 ft. lb. of max torque
- One-piece precision machined magnesium housing yields an extremely durable lightweight, balanced unit with minimal vibration
- Superior control with less user fatigue and longer tool life
- Eight-vane rotor provides faster motor start-up and greater performance with more torque
- Single chamber motor provides greater power and speed to remove stubborn bolts
- Muffler kit reduces noise for quiet performance so you can work longer with less auditory strain
- Patented cushion grip ribbed handle cover resists most shop chemicals, is easily field replaced, helps insulate from cold and reduces vibration
- Patented tip valve trigger provides increased air flow and greater tool control
- Twin hammer impact mechanism is durable and hard hitting; fewer parts and less down time
- Sealed in oil bath lubrication with Red Line synthetic oil to keep impact mechanism lubricated for less wear
- Slim style nose is ideal for working in restricted access areas
- Anvil stops when trigger is released which prevents anvil from throwing nuts and sockets
- Cushion grip trigger button delivers improved comfort and control
- Two-year warranty
