Snap-on Tool of the Month: Tire Gauge Inflator

KENOSHA, Wis. – September 29, 2010 – With gas prices constantly fluctuating, helping your customers save money at the pump should be a goal for every service tech. Keeping tires inflated at their proper level is a great way to improve fuel efficiency and using Snap-on's tire gauge inflator (TGIFS1) is the perfect tool to help them save some money.

"Gas prices are always on the mind of motorists and service technicians can help by providing fuel efficiency options to their customers. A quick check of tire pressure and inflating tires to the proper levels can make a world of difference at the pump," said Brian Woller, category manager for Snap-on. "Tire pressure is directly related to tire safety, so by educating customers about the importance of proper tire inflation and using the TGIFS1, service techs can help keep their customers' vehicles in safe working condition."

The Snap-on Tire Gauge Inflator (TGIFS1) is easy-to-use and has the following features:

- Snap-on exclusive design
- Heavy duty billet-machined aluminum body
- Dual swivel point hose for ease of use
- 20-160 psi range
- Modular design for easy replacement of worn parts
- Double sealed scale avoids contamination from air supply

Customers can find out more about the Snap-on Tire Gauge Inflator (TGIFS1) by contacting their Snap-on representative, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
