New Snap-on MicroLithium Cordless Infrared Temp Gun a “Must Have” for Accurate Temperature Readings

KENOSHA, Wis. – September 5, 2013 – The Snap-on line of MicroLithium cordless power tools is further enhanced with the addition of the new Snap-on® 14.4 Volt Cordless Infrared Temperature Gun (CTG761).

“There is no guesswork when it comes to our new CTG761. Service technicians will get precise readings to help them make informed decisions when working on engines,” said Rodger Isetts, product manager for Snap-on. “The MicroLithium battery gives users 30 hours of continuous use without having to recharge, making the CTG761 a real ‘must have’ for every tech.”

The new *Snap-on* 14.4 Volt Cordless Infrared Temperature Gun (CTG761) features a dual laser pointer that indicates the edges of the temperature circle, providing a highly accurate average temperature reading. With a range of minus 58 degrees to 1,832 degrees Fahrenheit, the CTG761 is exact to plus or minus three degrees and also offers adjustable emissivity from 0.3 to 1.00. The high contrast large display is clearly visible, even in bright sunlight. The continuous-on long term record function enables ‘watching’ temperature changes over a period of time without pressing the trigger.

Providing the widest temperature range and most advanced features of any professional gun on the market, the CTG761 allows the user to detect diagnostic differentials in temperatures for radiator blockages, brakes, tire and track set ups and others on the entire vehicle. The built-in microprocessor of the CTG761 will provide accurate readings for everything from monitoring heating and A/C units to inspecting exhaust and emission systems, thermostats and engine temperature sensors. Plus, with the optional K-type probes, the user will have the added ability to measure highly accurate contact temperatures, which is like combining two quality products in one.

Customers can learn more about the new *Snap-on* 14.4 Volt Cordless Infrared Temperature Gun (CTG761) by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com/powertools or by calling toll free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks.
