## Tool of the Month: New Snap-on Hand-Held 5-Gas Analyzer

**KENOSHA, Wis. – July 16, 2013** – Every professional technician wants his customer's vehicle to perform efficiently when the diagnostic work is complete. The new Snap-on® Hand-Held 5-Gas Analyzer (HHGA5B) supplies precise readings for both pre-emissions testing and vehicles that have failed emissions tests.

"The new Snap-on Hand-Held 5-Gas Analyzer provides an instant assessment of the engine and catalytic converter," said Dave Brekke, category manager for Snap-on. "Technicians can use the HHGA5B independently or extend the functionality of their existing diagnostic tools by linking it to a VERUS, VERDICT or MODIS diagnostic platform, getting all the information needed to make the repair."

The features and benefits of the new *Snap-on* Hand-Held 5-Gas Analyzer (HHGA5B) include:

- Five gas measurements including oxygen (O<sub>2</sub>), carbon dioxide (CO<sub>2</sub>), carbon monoxide (CO), hydrocarbons (HC) and nitrogen oxides (NO<sub>x</sub>) emissions
- Extremely efficient providing an instant diagnostic health check to improve efficiency and reduce vehicle emissions to help protect the environment
- Fully portable as it can be used anywhere in the shop or on the road, using either AC or DC battery power
- Use with VERUS® series, VERDICT® or MODIS™ diagnostic platforms to gain additional real time on-screen information and graphics

Customers can learn more about the new *Snap-on* Hand-Held 5-Gas Analyzer (HHGA5B) by contacting their participating Snap-on franchisee or representative, visiting [www.snapon.com/shoptools](http://www.snapon.com/shoptools) or by calling toll free 877-SNAPON-4 (877-762-7664).
