# Snap-on Tool of the Month: Hex Keys

## *L-Shaped Wrench Sets – Stronger, Easy-to-Identify*

**KENOSHA, Wis. – October 22, 2009** – Stronger, more durable and easier to identify, Snap-on's L-Shaped Hex Key Wrench Sets are designed with the service technician in mind. With three different sets, Snap-on has the hex key sets to make life easier and, most importantly, more productive.

"Snap-on's L-shaped hex keys are designed to be stronger than any that our competitors have to offer," said Mark Knapp, product manager for Snap-on. "The natural finish for the inch keys and the gold for the metric keys make them easier to identify. As with all our tools, Snap-on hex keys are specifically designed to help service technicians be more efficient during the course of the day."

Snap-on's offers three L-Shaped Hex key Wrench Sets: 9-piece Metric L-Shaped Hex Wrench Set (AWMG9), 8-piece Tamper Proof TORX® L-Shaped Set (AWTR8) and 13-piece Fractional L-Shaped Hex Wrench Set (AWS13), featuring:

- Increased productivity due to easy-to-read sizes compared to standard black tools.
- Up to 20 percent stronger than the competition.
- Natural finish for fractional and gold for metric makes it easier to differentiate between the hex keys when on a bench or in a tool box.
- Dropped tools are easier to locate with a flashlight compared to standard black tools.

Customers can find out more about the Snap-on's L-Shaped Hex Key Wrenches by contacting their participating Snap-on franchisee, visiting [www.snapon.com](http://www.snapon.com) or by calling toll free 877-SNAPON-2 (877-762-7662).
