Snap-on Tool of the Month: Heavy Duty Specialty Tools

Sockets That Will “Impact” Your Performance and Productivity

KENOSHA, Wis. – September 22, 2009 – Heavy duty jobs need tough tools. Snap-on has five heavy duty specialty impact sockets that will save time and help get the job done right the first time.

“Snap-on’s heavy duty specialty tools are designed to make the most challenging jobs easier for service technicians,” said Scott Amundson, product manager for Snap-on. “By utilizing Snap-on’s specialty impact sockets, you will see a noticeable increase in productivity that can lead to a noticeable increase to the bottom line. Get the job done right with the right Snap-on tools.”

Snap-on’s heavy duty specialty impact sockets include:

¾” Drive 12-Point ¾” Impact Socket (IMFDL242)

- For Caterpillar head bolts and Detroit Diesel main bearing cap bolts. Designed to remove the Caterpillar head bolts (C12, C15, C16 and 3406E) where the front two and back two head bolts are positioned under the valve covers. Also works on Mercedes Benz MBE904 and MBE906 2007 and newer EGR engines for 19 mm head bolts.

12-Point ½” Drive ½” Impact Socket (S6197)

- For heavy duty drivelines that have half-inch fasteners found on Kenworth, Peterbilt and many more heavy duty applications.

12-Point ½” Drive ½” 12 mm Impact Socket (S6200)

- For old and new generation Detroit Diesel engine cam bearing cap bolts. The newer Detroit Diesels use longer cam bolts where the S6200 will work on both the old and newer cam bolts.

¾” Drive 12-Point 20 mm Impact Socket (IMMD202B)

- Designed to remove the head bolts on Caterpillar engines (C7, C8, C9 and C10).

¾” Drive 12-Point 17 mm Impact Socket (S6217)

- For head bolts on heavy duty trucks and buses with Mercedes Engine MBE900.

Customers can find out more about Snap-on’s heavy duty specialty tools by contacting their participating Snap-on franchisee, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
