Snap-on Tool of the Month: Multi-Position Prybars

KENOSHA, Wis. – May 21, 2009 – Whatever the job, Snap-on has the right prybar. Snap-on's three-piece Multi-Position Prybar Set (PBMP703A) is a must for every service technician. The set includes an eight-inch multi-position prybar (PBMP8A), a 12-inch multi-position prybar (PBMP12A) and a 16-inch multi-position prybar (PBMP16A).

Snap-on also offers a 24-inch Multi-Position Prybar (PBMP24A) as well as a 36-inch version (PBMP36A) that are ideal for applications where extra leverage is required.

"Snap-on multi-position prybars are made with one goal in mind, to help make service technicians more productive and more efficient on every job," said Bryan Hantke, product manager for Snap-on. "Since our prybars are easily adjusted to 17 incremental angles of 15 degrees, they can do whatever job you need to do when you need to do it. It is like having an entire series of prybars in one tool"

Snap-on multi-position prybars feature:

- High leverage design with smooth radius head to provide maximum leverage while lifting and pulling back.
- Ability to conform to almost any shape or angle so technicians can get at components without wasting time taking off or moving components out of the way.
- Integrated hinge offers superior strength and is easy to use. Simply depress the hinge button and move the prybar foot to the desired locking position.
- Special alloy steel is precision forged and heat treated for optimum strength and durability.
- Patented ergonomic shape and contour handle.
- Industrial finish to guard against corrosion.
- Ideal for pulling diesel injectors, seals and pulling things apart in many body shop applications.

Customers can find out more about the Snap-on multi-position prybars by contacting their participating Snap-on franchisee, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
