Snap-on Core Fuel Injection Pressure Gauge Set Is a Great Start for Your Service Needs

KENOSHA, Wis. – July 9, 2010 – With its core fuel injection pressure gauge set (EEFI500CORE) Snap-on gives you the tools you need to begin your fuel injection service business.

“The Snap-on core fuel injection pressure gauge set has the essential items needed to provide the basics when it comes to fuel injector testing,” said David Brekke, category manager for Snap-on. “We also provide a label on the inside of the kit that indicates the add-on set or individual components you need to complete the master set. Our kit is designed to help our customers grow their fuel injection business at the pace they feel comfortable.”

The Snap-on core fuel injection pressure gauge set (EEFI500CORE) features and benefits include:

- Convenient label shows image of components, part numbers and applications for quick, easy identification and storage
- Individual components can be added as needed to build to the master set level
- Fully detailed user manual includes test connection illustrations and application charts
- Set contains a tee manifold with shut-off valve and a 3 1/2" diameter gauge assembly with a blow down valve
- New blow molded case with special removable lid allows for convenient storage in 4" deep drawer and allows easy access to components.

The set includes the following components:

- EEFI5001 - Gauge and hose assembly with bleed-off valve
- EEFI5002 - Standard Schrader hose assembly (Chrysler, GM, M-B, Porsche, Saab and Saturn)
- EEFI5003 - Small Schrader hose assembly (BMW, Ford, Jaguar, Kia, Lincoln, Mazda, Mercury, Mini, Volvo and VW)
