Snap-on Classics: F80 3/8-Inch Drive Ratchet

KENOSHA, Wis. – July 9, 2013 – If you don't have a Snap-on® F80 3/8-inch Drive Ratchet with Dual 80® technology, what are you waiting for? Dual pawls and an 80 tooth gear provide this Snap-on classic with more power in less lateral space.

“Our F80 ratchet with Dual 80 technology is the standard by which other ratchets are judged,” said Mark Knapp, product manager for Snap-on. “With up to 25 percent less ratcheting arc than our previous designs, the F80 requires less arc to engage the next gear tooth. Easy to use, service technicians will find that this ratchet can make an instant improvement in productivity and efficiency.”

With up to 250 ft. lbs. of ultimate torque, the *Snap-on* F80 3/8-inch Drive Ratchet keeps seven teeth in constant contact with the gear to provide greater strength and durability. By using it with Snap-on sockets, the F80 will give users the lowest height of any ratchet/socket combination on the market, helping the F80 slip right into those tight spots like no other ratchet. In addition, its sealed head helps keep the dirt out of the head mechanism.

Customers can find out more about the *Snap-on* F80 3/8-inch Drive Ratchet with *Dual 80* technology, by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com/handtools or by calling toll free 877-SNAPON-4 (877-762-7664).
