Snap-on 3/8-inch Drive Short Phillips Socket Driver

Techs working on high-torque applications such as Honda and / or Acura brake drums and rotors, may find themselves in need of a specific socket driver to get the job done. That's why Snap-on Tools has introduced its 3/8-inch drive short #3 Phillips socket driver (FPS32E).

The tough and reliable design of the Snap-on socket helps techs perform necessary tasks more reliably and safely and in less time than with similar tools, providing control with power, so techs never have to compromise.

Customers can find out more about the 3/8-inch drive short Phillips socket driver by contacting their local Snap-on representative, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
