With ISO-Ride™, Technicians Have the Power to Do More Within Reach

Just One of the Many Smart Features Built into EPIQ

KENOSHA, Wis., March 31, 2009 – Snap-on's new EPIQ tool storage unit is a complete productivity system that brings together sophisticated PC-based diagnostics and cordless tools, with reliable security and Snap-on's heritage of rugged durability. It was designed with innovative features that set it apart from all of the other tool storage units that are on the market today. One such feature is EPIQ's ISO-Ride™.

EPIQ will roll off the truck and around the automotive shop with ease thanks to ISO-Ride™. Heavy duty, seven-inch mag wheels with independent torsion spring suspension provide for a smooth, superior ride, and they are so strong that they can literally hold a ton! The fact that all four wheels swivel makes EPIQ easy to maneuver from service bay to service bay. EPIQ is changing the way that today's professional technicians work.

"EPIQ is a revolutionary approach to Snap-on tool storage," said Chris Potter, president of tool storage for Snap-on Tools. "Smart features help technicians become better organized; resulting in less wasted time, improved productivity and higher incomes. With ISO-Ride™, once it rolls into their bays, technicians will have the power to do more within reach."

The ISO-Ride™ suspension system is just one of the numerous features that make EPIQ the world's best tool storage unit. To see full details and specs on EPIQ, contact a local Snap-on franchisee or visit www.snapon.com/epiqpower.

About Snap-on Tools:

Snap-on Tools Company, LLC is a leading global innovator, manufacturer and marketer of tools, diagnostics and equipment solutions for professional users. Product lines include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions which are used by technicians and professionals at vehicle dealerships and repair centers and in the marine, powersports and aviation industries. Snap-on is one of the largest non-food franchise companies in the world, selling its products through more than 4,000 franchisees worldwide and through company-direct sales and over the Internet. Snap-on Tools is a subsidiary of Snap-on Incorporated, which was founded in 1920 and is a \$2.8 billion, S&P 500 company headquartered in Kenosha, Wis. For additional information on Snap-on, visit www.snapon.com.
