## **Snap-on Offers Super Socket Savings When Purchasing New MG325 Impact Wrench**

*Buy MG325, Save \$100 on Matching Flank Drive<sup>®</sup> Socket Set*

**KENOSHA, Wis. – January 8, 2009** – For a limited time, when you buy Snap-on's new MG325 3/8" Drive Impact Wrench, you can save \$100 on a matching Flank Drive<sup>®</sup> socket set – your choice of the seven-piece 3/8" drive swivel impact socket set (207IPFM) or the 14-piece 3/8" drive deep impact socket set (214SIMFMYA).

"By using Snap-on's Flank Drive<sup>®</sup> socket sets with Snap-on's new MG325 3/8" Drive Impact Wrench, you will be maximizing the efficiency levels of both the sockets and the MG325," said Rodger Isetts, product manager for Snap-on. "These sockets were designed to work hand-in-hand with the MG325 in order to make it the most productive and efficient impact wrench it can be. We are offering our customers this limited-time \$100 savings incentive because we know, once they buy a MG325 along with one of our industry-leading socket sets, they will see an immediate increase in their productivity levels."

The Snap-on MG325 3/8" Impact Wrench features 425 ft. lbs of bolt breakaway torque and its patented one-piece magnesium housing construction means components are aligned with precision accuracy which provides longer tool life. The continuous oil bath lubrication means the impact mechanism is always lubricated for less wear and maintenance and the twin hammer impact mechanism provides more dependable harder hitting blows with less moving parts, also resulting in longer tool life. This smaller, lighter, faster and stronger impact wrench also has a two-year warranty.

Designed to withstand today's impact guns with high torque output, Snap-on's Flank Drive<sup>®</sup> Socket Sets feature laser welded pivot pins providing smooth, full-30-degree uninterrupted swivel action. This allows efficient power transfer prolonging the life of the socket. In addition, the sockets deliver 15 to 20 percent more turning power, requiring less use and abuse of the power tool and sockets, and the 30-degree uninterrupted swivel action means greater accessibility in tight quarters allowing easier and faster removal of stubborn fasteners.

The Snap-on MG325 3/8" Impact Wrench and Flank Drive<sup>®</sup> Socket Sets cover most automobile and light truck applications and are ideal for general automotive maintenance tasks and continuous use facilities such as muffler and tire shops. Small engine repair facilities, motorcycle and snowmobile shops, and manufacturing environments where weight and repetitive motion are concerns will also benefit from its use.

Customers can find out more about the Snap-on MG325 Impact Wrench and the Flank Drive<sup>®</sup> Socket Sets by contacting their local Snap-on franchisee, visiting [www.snapon.com](http://www.snapon.com) or by calling toll free 877-SNAPON-2 (877-762-7662).

**About Snap-on Tools**

Snap-on Tools Company, LLC is a leading global innovator, manufacturer and marketer of tools, diagnostics and equipment solutions for professional users. Product lines include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions which are used by technicians and professionals at vehicle dealerships and repair centers and in the marine, powersports and aviation industries. Snap-on is one of the largest non-food franchise companies in the world, selling its products through more than 4,000 franchisees worldwide and through company-direct sales and over the Internet. Snap-on Tools is a subsidiary of Snap-on Incorporated, which was founded in 1920 and is a \$2.8 billion, S&P 500 company headquartered in Kenosha, Wis.
