Make Removals and Installations a Snap with these Blue-Point Specialty Tools

KENOSHA, Wis. – April 19, 2011 – Removals and installations are part of the job every day. For a cost-effective way to increase the number of removals and installations performed in the course of a day, look no further than these Blue-Point specialty tools.

“You can’t put a new part on without removing the old one,” said Brian Woller, category manager for Snap-on. “Our Blue-Point specialty kits include all the tools you need to complete removal and installation of a part in a timely and efficient manner. These tools are sure to increase your workload because you will be able to do more jobs, faster.”

Camshaft Seal Removal/Install Kit (YA7960)

- Easily remove and install camshaft and crankshaft seals without damage
- Compact puller with unique extracting hooks engage seal for quick removal
- Interchangeable sleeves and mandrels allow easy installation of new seal
- Suits seals from 21.5mm to 64mm

Hub Clamp Expander (YA7970)

- Removes even the most stubborn struts and ball joints with ease
- Interchangeable spreaders prevent damage to aluminum or cast iron hubs
- Adjustable for use on hubs with centralized or non-centralized slot
- Allows for on-the-vehicle repair
- Designed for hubs and clamping style struts and ball joint mounts

Customers can find out more about these Blue-Point specialty tools by contacting their Snap-on representative, visiting www.snapon.com or by calling toll free 877-SNAPON-2 (877-762-7662).
